

Final Finishing Touches

Beyond Web Development for Social Change

Logistics

Lab

Albert Kochaphum
Lab 6 | July 27th, 2026

Logistics

- **Wednesday 7/29**
 - **Last Lecture**
 - The lecture will **Not be recorded**
 - **Final Thinking Cap due**
 - **Final Project due**
- **We will do course evals today! (Due tomorrow...)**
- **Turn in any late assignments before August 2.**
 - **Email me if you need an accommodation**

Final Timing

Time	
5:00	Group A
5:20	Group B
5:40	Group C

Ideally: Will be 20 minute presentations after the final lecture!

Final Project **Surprise**

And previous students!

Remember...

Get help early and often!

Why?

We covered a lot of content

There's no need to struggle implementing it all by yourself!

What is important is why you are coding!

DAY1 OF PROGRAMMING

10 YEARS OF PROGRAMMING

The technical “what” of coding will always be there to look up!

Reminder: Main coding take away...

Programming is not a solo endeavor.

Coding gets easier with more people because programming ultimately is about communicating!

Design Justice in your mapapplications

What is the purpose of the map?

Who is the audience?

Is a map the best solution?

Thought exercise: Give your site to your parents, what do you think is their main takeaway?

The 5 Cartographic Principles

- 1. Concept before compilation**
- 2. Hierarchy with harmony.**
- 3. Simplicity from sacrifice.**
- 4. Maximum information at minimum cost.**
- 5. Engage the emotion to engage the understanding.**

“Mapmakers, indeed, have the ability to use (or misuse) cartographic principles to represent (or misrepresent) the spatial data...”

Visual Hierarchy

Put your survey respondent's stories at the forefront.

Visual Hierarchy

The Laws of Visual Hierarchy

low visual prominence → high visual prominence

Size	small		large
Position	bottom of the page		top of the page
Color	low contrast		strong contrast, unique color
Format	text	images, icons	movement, video
Position relative to other elements	crowded on the page		surrounded by whitespace

 orbitmedia.com

How?

Visual Hierarchy

You have the option to dump data or to tell a narrative.

Primary Symbols

What grabs your attention when you first go to your website?

Design Justice in your mappplications

Thought exercise: Give your site to your parents, what do you think is their main takeaway?

Who are you making the mappplication for?

1. Unique Group name

Newbury Park Student Athletes' H2Opinions

[HOME](#) [ABOUT](#) [SURVEY](#)

Do NPHS student athletes think there are enough clean and reliable water fountains during sports practices?

☒ YES ☐ NO

2. Easily Understood map title

3. Explaining what the symbols mean

Currently viewing all responses

Click on a polygon ☐ on the map to view responses from just that location.

YES from Pool (July 2024)

Reason: "I think there are enough water fountains. There is one right by the pool which is very convenient just in case I need a quick drink. I also think they are cleaned regularly but I'm not sure."

[Read more](#)

5. Explaining how to interact

4. Responses from the survey made clear and easy to understand

Ingredients for a successful project, does not need to be this pretty!!!!

Who are you making the mapplication for?

1. Unique Group name

4. Explaining what the symbols mean

2. Easily Understood map title

3. Survey data explaining why it is important and providing the questions themselves

Ingredients for a successful project, does not need to be this pretty!!!!

Theme of the week

**Looking beyond web development and GIS for
social change**

Rough Drafts

Logistics

Rough Drafts

Lab

Two Types of Mentorship

Preventing this:

How it started:

How it is going??

Sustaining this:

As peers

Part 2: Toxic situations and more

Thinking about all the previous examples...
What are your ethics dealing with confrontation among peers?

Response: Fight or Flight

In-Class Exercise: Peer Mentorship

In-class exercise!

Join a breakout room with someone you never talked to in the class

Start with a problem

Tell your partner about a problem you're struggling with in your project and you need outside perspective on.

Talk it out

Repeat the problem in your own words. Then, instead of offering advice, try to **ask follow-up questions**.

Uno Reverse!

Switch places and try the same process again!

Follow-up questions

- Reflect on what the process of communicating that has already added to your experience;
- As a mentee what was your mentor able to add?
- As a mentor, what new things have you learned from this short exchange from the mentee that is related to your project?

Working towards social change is an iterative process.

What is this course?

Just like how your group projects are a part of that iterative workflow...

So too is:

community organizing

collaborating

mentoring

Are all a part of a continual process of change.

Sustainable Organizing

Why a post-final social event?

Sustainable Organizing

Community care!

Let's keep all this in mind when going forward in any project!

Rough Draft Grading

Points	Percent	Criteria
20 points	40%	User story fulfilment
20 points	40%	Functionality
15 points	15%	2-3 minute presentation
5 points	5%	Readme.md

Simpler memo/user stories = easier grade!

JavaScript is annoying

It's just a simple fact! But...

Dmitri Pavlutin

I help developers understand JavaScript and React

[All posts](#) [Search](#)

Gentle Explanation of "this" in JavaScript

Working on JavaScript alone is more annoying

Current Progress 58%
0%  100%

 **stackoverflow**

What do you do when you get stuck on a problem? Select all that apply.

- ☐ Meditate
- ☐ Call a coworker or friend
- ☐ Do other work and come back later
- ☐ Watch help / tutorial videos
- ☐ Go for a walk or other physical activity
- ☐ Play games
- ☐ Visit Stack Overflow
- ☒ Panic
- ☐ Google it
- ☐ Visit another developer community (please name):
- ☐ Other (please specify):

[Back](#) [Next](#)

Remember, you are coding as a group! The rough draft is to give you a rough idea of your group dynamics and coding style.

Peer Reviews

Sharing mapplications as stories

Final Project Overview

Group Peer Review Exercise

Group Peer Review Exercise

	Group 1	Group 2
Triplet Group	AAS 191A Memo	Memo
Happy Group	ASIA AM 191A: Group Memo	Memo
Tuna	ASIA AM 191A: Group Memo	AAS 191A Memo

Group 1

Part 1. First impressions

Who do you think is being empowered? Why?

What do you think is the objective and story being told in the mapplication?

Was there anything confusing for you or any bugs (broken links, etc.)?

Part 2. Presentation impressions

Who is being empowered?

Find your group above and fill out Part 1 for Group 1 and Group 2.

Rough Draft Peer Reviews

1. Make a copy of this Google Doc by clicking:

<https://docs.google.com/document/d/1DHrQKDbdK8Z7xEskW7xsyzS0O1zSn5Zqb4zhF4lsjNw/copy>

2. Go to the websites for your pair group and fill out Part 1 (5 minutes)

3. Take notes during the presentations and fill out Part 2 for each group

4. Fill out Part 3 while discussing with your group mates (3 minutes)

5. Group A discuss Part 3 with Group B (5 minutes)

6. Group B discuss Part 3 with Group A (5 minutes)

I SUSAN SARADONT MIND THIS TOPIC AND POPUPS AT ALL!

Evan Sang

Lab 4 Enable fun mode

About Me!

My name is Evan, and I'm a fourth-year from UCLA with a Statistics and Data Science major and a Digital Humanities minor. I love the practice of narrative building through data visualization and map-making as a counter-practice to the way we see data used in service of empire.

Here's a photo of me (totally)

I believe that data doesn't only have to be used as a tool for colonialism. My hope is to use critical cartography and data visualization within community organizing to better propagate organizational vision, strategy, and campaigns.

Here are some of my favorite maps:

- Interactive Encyclopedia of the Palestinian Question--Places
- UCLA Cops off Campus Abolition Map

Besides being a nerd, I also love to eat out! Here's a list of my favorite places to eat in Westwood (also listed on the map):

[Elysee Cafe](#) [The Spot Street Pupas](#) [House of Mandi](#) [Egg Tuck](#)

Best Food Spots in Westwood

Egg Tuck
1049 Gayley Ave, Los Angeles, CA 90024
Vegetarian Friendly!
Best Dishes: Eggcellent Burrito, New Orleans Cold Brew

LAMINE YAMALWARD OF THE WEEK

Lizzie Su

Commuting to Mountain House High School

Take the Survey Below

What village do you live in? *

Choose

What street do you live on? *

Your answer

Which mode of transportation do you (or your student) use to get to Mountain House High School? *

☐ Walk

☐ Bikescooter (non-electric)

☐ Bikescooter (electric)

☐ Car

☐ Motorcycle

How do students get to school?

Mountain House is home to over 30,000 residents as of the beginning of 2020 (Census, 2020). However, there is only one high school serving the entire city. If a new high school were to be built, its location should be informed by the needs of the residents, not the pre-established places created by developers.

This project aims to understand the experiences of current high school students and their parents as they commute to school. As a lifetime resident of Mountain House, I hope that community leaders continuously listen to the people they serve as the city continues to grow.

Mountain House is divided into different villages, each with their own K-8 school. Some villages (namely College Park and Lakeshore) are still in development. Click on the buttons below to explore!

Final Assignments

Due July 7/29

- **Final Thinking Cap**
- **Final Group Assignment**

Final Thinking Cap Reminder

What are your thoughts about the future of web development for civil society?

Which visiting voice left the most impact on you?

What **people connections (if any) would you like to maintain from this class going forward?**

<https://github.com/albertkun/26S-ASIAAM-191A/discussions/14>

Due on Wednesday 7/29 – Respond to just **one other student!**
