Visiting Voice: Hillary Chin

Hillary Chin is a first-generation Chinese-American brand designer, digital artist and printmaker. She worked as the creative director for the Rae for LA campaign in 2026 Los Angeles Mayoral Primary Election and was a senior designer at Asana.

Good artists copy.
Great artists steal.

Design/Data Justice

UI/UX

User Interfaces/User Experience

User Interface (UI) is the tool

User Experience (UX) is how the tool is used

What is the difference?

Want to learn more about the differences?

<https://www.youtube.com/watch?v=6chQ6JZpvTQ>

Why are we discussing this now?

Web design is the presentation part of web development!

Want to learn even more?

<https://www.theodinproject.com/paths/full-stack-javascript/courses/html-and-css/lessons/introduction-to-design-and-ux>

Wire Frames

UI/UX

Logistics

UI/UX

▶ Wire Frames

What is a wireframe?

A rough draft of what you will be creating

Types of Wire Frames

Analog

Digital

Pen and Paper

- Boxes for website
- Annotations for actions

Digital Pen / Whiteboard

- More free form
- Easily do Multiple iterations

Low fidelity

- Boxes for content
- Placeholder text

High-fidelity

- Actual text planned for website
- Proper image-sizing

Why Wireframes?

More like.... U-why-reframes...

Why Wireframes?

They connect User Experience to User Interface

**Also..... makes sure you have an idea
of what you are doing before you
(git) commit to doing it.**

Tools for wireframing

Analog

- Pen
- Pencil
- Paper
- Post-it Notes

Digital

- Figma/FigJam
- Canva
- Draw.IO
- Adobe Sketch
- PowerPoint
- Adobe Illustrator

Feel free to ask if you have any questions!

Connecting Design Justice to Data Justice

Connecting Design Justice to Data Justice

The Bridge of E (Idea)thics

Bridge of E(ldin)thics

Bridge of E(ldin)thics

Bridge of Ethics for Web Design

Evaluate a new idea

Evaluate an existing decision

Bridge of Ethics

Idea

**Capability
Approach**

Virtue Ethics

Deontology

**Consequential
-ism**

Result

Consequentialism

“The ends justify the means”

- What are the consequences of your decision?
- Do they improve the common good of those affected?

Deontology

“Every time you do something, do the thing every person should do in the same situation.”

- What norms and expectations are you establishing?
- Are you upholding your duties of care?

Virtue Ethics

“Are you living a good life true to yourself by doing this action?”

- What type of person do you become in the process?

Capability Approach

“What is the actual capability for a person to achieve their own well-being?”

- What world are you building for the end-user?
- What capabilities are you granting or enabling?

Utilitarianism

“Do the benefits outweigh the costs?”

The diagram consists of a large blue rectangle representing 'Consequentialism'. Inside this rectangle, centered, is a smaller orange rectangle representing 'Utilitarianism'. This visualizes Utilitarianism as a specific form of Consequentialism.

Utilitarianism

Consequentialism

The capabilities approach and the role of data justice

[What is data justice? The case for connecting digital rights and freedoms globally](#)

**Design Justice and Data Justice are
interconnected**

Key Takeaway:

Design Justice

How does your application fit into the larger context of empowering civil society?

Data Justice

Do the parts of your application protect the inherent rights of people?

Both are ethical frameworks for **systemizing** and **defending** your decisions

Remember, ethics is about

Ok, seriously, why is this important to mapping?

Maps = Interconnected power relations

Data Justice is just a subset!

Most critical point for your group projects

Be intentional in what you design, how you engage with community, and what you choose to share.

Design is relatively easy

Justice is hard

But....

**“The arc of the moral universe is long,
but it bends towards justice.”**

-Martin Luther King Jr.

So, let's fight on the side of the moral arc.

Rough Draft Grading

Points	Percent	Criteria
20 points	40%	User story fulfillment
20 points	40%	Functionality
15 points	15%	2-3 minute presentation
5 points	5%	Readme.md

Simpler memo/user stories = easier grade!

Final Project Group Member Evaluations

Final Group Performance Evaluation

This evaluation accounts for 10% of your final grade and is intended to gauge everyone's contributions. Please fill this out anytime BEFORE submitting your final project (not after!). All evaluations are confidential and will not be shared with anyone. The survey should take around 4-5 minutes to complete.

Responses are connected to your account. An asterisk (*) indicates mandatory questions.

Which group are you filling this form out for?

- ☐ Happy
- ☐ Tuna
- ☐ Triplet

Required and available during 7/29 to 7/31

<https://cloud.albertmaps.com/apps/forms/s/QrXw3xG7Jt63BZeBJMT3JcMg>

Final Project Group Member Evaluations

The screenshot shows a Google Form titled "Final Project Group Member Evaluations". It contains three sections:

- Group Member #1 Name ***
They will be referred to as GM #1 for the rest of the evaluation.
A text input field with the placeholder "Enter your answer".
- Group Member #2 Name**
They will be referred to as GM #2 for the rest of the evaluation.
A text input field with the placeholder "Enter your answer".
- I feel that I contributed to the final group project in a meaningful way ***
A list of five radio button options: Strongly Agree, Agree, Neutral, Disagree, and Strongly Disagree.
- I feel that GM #1 contributed to the final group project in a meaningful way ***
A list of five radio button options: Strongly Agree, Agree, Neutral, Disagree, and Strongly Disagree.

Required and available during 7/27 to 7/29

Time to make our own legend!

Final Assignments

Due Monday 7/27

- **In-class lab (just one per group!)**

Due Wednesday 7/29

- **Final Thinking Cap**
- **Final Group Assignment**

Final Thinking Cap

What are your thoughts about the future of web development for civil society?

Which visiting voice left the most impact on you?

What **people connections (if any) would you like to maintain from this class going forward?**

<https://github.com/albertkun/26SU-ASIAAM-191A/discussions/14>

Due next week on Wednesday 7/29 – Respond to just **one other student!**
