Group Assignment #4 due Monday!

Group Assignment #4 - Rough Draft

Due 7/29

Create a functional (doesn't have to be pretty or clean) version of your mapplication using the survey from students in class.

This assignment will be graded on the following:

1. Fulfillment of the user stories set forth in the memo
2. Relevant functionality that is specific to empowering community voices
3. An updated `readme.md` for the repository that describes:
 1. The technology used for the project
 2. How others could use this in the future
 - Feel free to reference the memo
4. A very short 3-minute presentation answering:
 1. Who is the project for and why is it important?
 2. How does the website empower people?
 3. What changes you would like to focus on between now and the final? Why?

Everyone is required to speak.

This is a rough draft!

Reminder: Not many assignments left!

- **1 Lab**
- **1 Thinking Cap**
- **1 in-class lab**
- **1 Group Assignment**
- **1 Final**

Last ones!!!!!! (pun intended)

CHORING DESIGN JUSTICE TO USER STORIES

Lizzie Su

One way to incorporate design justice practices into future projects would be to develop detailed user stories that illustrate an extremely clear picture of the demographic the product is targeting. The reading helped me realize that even if I believe I am tailoring a project towards a specific audience, I am still making other assumptions about the users, regarding (for example) their proficiency in **English and Internet access**. Planning out user stories can give designers a better idea of who is using their product and what challenges they may face while learning to use it effectively.

EPIC BUTTONS AND BOXES!

Madison Yang

Week 3: Practicing with geoJSON!

Background

Given the continuously growing number of Chinese Americans living in San Diego, improving patients' access to Mandarin, Cantonese, and other Chinese language services is a critical step towards ensuring greater health equity. Members of the community were asked about whether these resources are currently available at their local hospital/clinic (or have been in the past), and if so, they were invited to share more about their experience using such translation services.

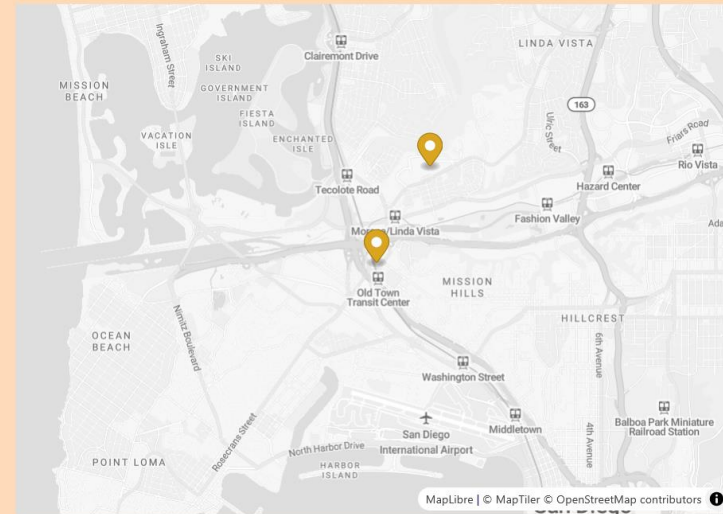

Locations

Participants reported receiving healthcare in San Diego neighborhoods including...

La Jolla

Old Town

North Park

COVID Vaccine Study Previously Blocked By CDC Is Out — Here's What It Found

Add Healthline on Google

A study on COVID-19 vaccines that was previously blocked by the CDC's acting director was published in a medical journal. Luis Velasco/Stocksy

- A COVID-19 vaccine efficacy study that had previously been blocked by the CDC was published in a scientific journal.
- Acting CDC Director Jay Bhattacharya blocked the study from appearing in the CDC's Morbidity and Mortality Weekly Report (MMWR), prompting months of criticism.
- The study affirmed that COVID-19 vaccines reduced the risk of hospitalization and severe illness among older adults, reinforcing the safety and effectiveness of vaccination against the disease.

Is this sufficient?

Los Angeles Times

CALIFORNIA

Orange County demands \$4 million from company at center of Garden Grove chemical crisis

Water is sprayed on large storage tanks at the GKN Aerospace facility in Garden Grove on May 24. (Kayla Bartkowski / Los Angeles Times)

“This incident was clearly not an unforeseeable accident as GKN has a well-documented history of regulatory violations at the site dating back over a decade,” states the letter, which was obtained by The Times.

CALIFORNIA

‘We need answers.’ Politicians demand accountability from GKN Aerospace after hazmat crisis

May 28, 2026

The company, according to county attorneys, faced California Division of Occupational Safety and Health citations and more than \$900,000 in fines from the South Coast Air Quality Management District for past offenses.

30 minutes ago

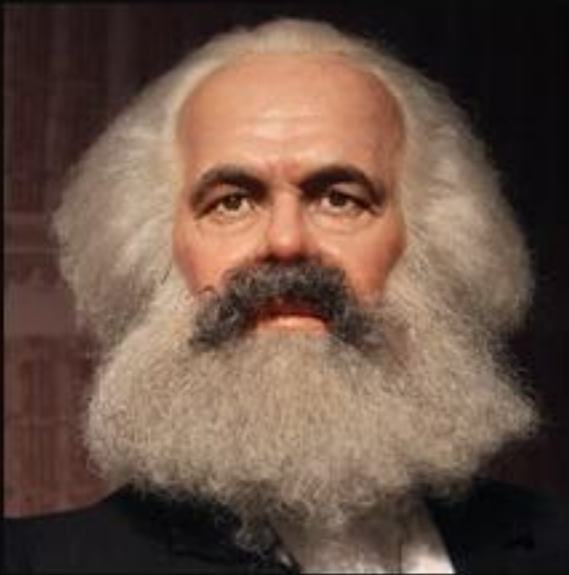

<https://www.latimes.com/california/story/2026-07-17/orange-county-demands-4-million-from-gkn-aerospace-after-crisis>

Why is this allowed to happen?

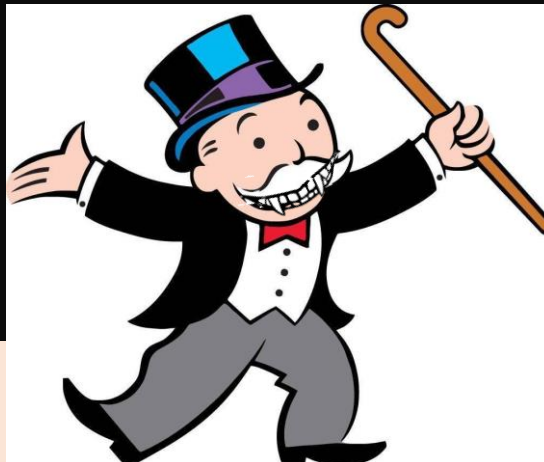

Because Capitalists suck.

Literally:

Karl Marx

Capital is dead labor, which, vampire-like, lives only by sucking living labor, and lives the more, the more labor it sucks.

Marx my words: More money leads to more exploitation.

Unlimited exploitation of cheap labour-power is the sole foundation of their power to compete.

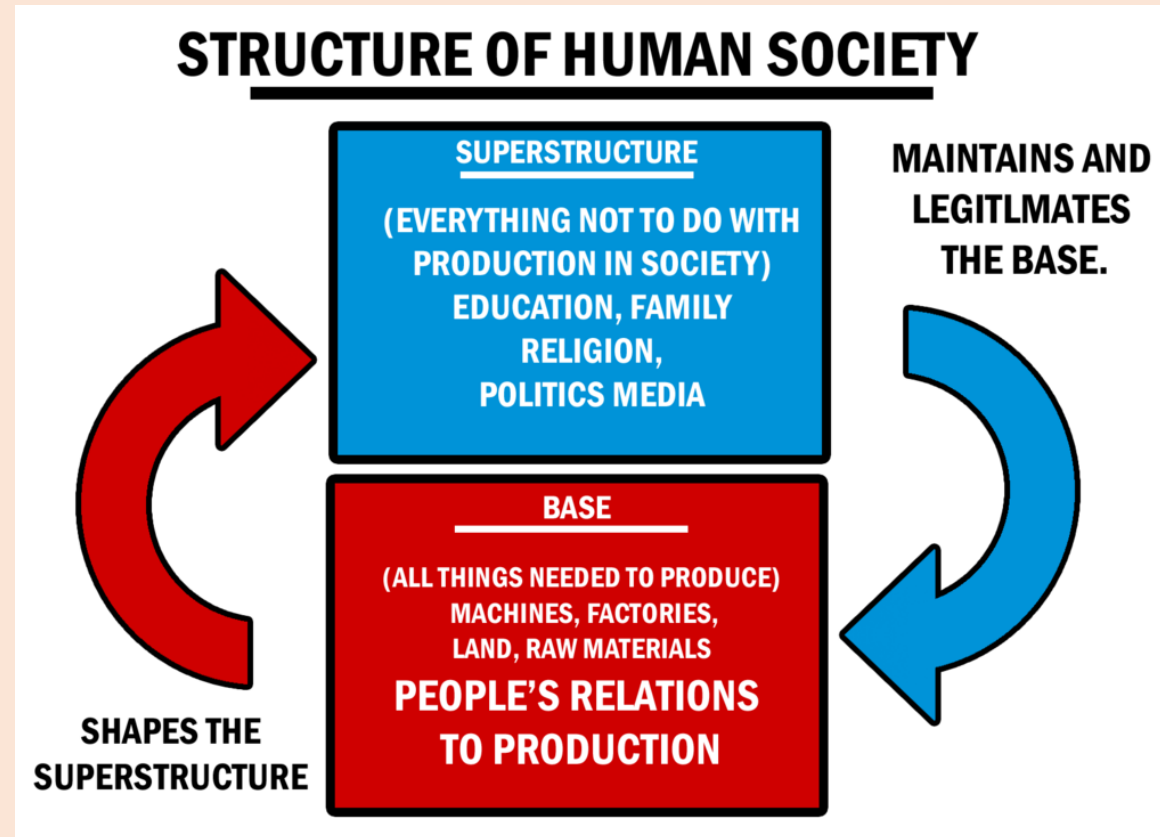

“THERE MUST BE
SOMETHING ROTTEN
IN THE VERY CORE
OF **A SOCIAL SYSTEM**
WHICH INCREASES
ITS WEALTH
WITHOUT DIMINISHING
ITS MISERY.”

KARL
MARX

MAY 5, 1818 - MARCH 14, 1883

It leads to more **exploitation** of the environment, society, and people.

False consciousness allows this to happen

The **owners of production** (rich) make it so that the **workers** (poor/working class) cannot believe an alternative.

One last note:

Socialism

Autocracy

Dictatorship

**No personal
property**

Socialism just means that the **WORKERS** are the **OWNERS** of production, so that decision making power is distributed equally. Housing, health care, etc. becomes a right not privilege!

Socialism in the USA

Police

Public Roads

Fire department

Social Security

Subsidies (Oil, Gas, Weapons)

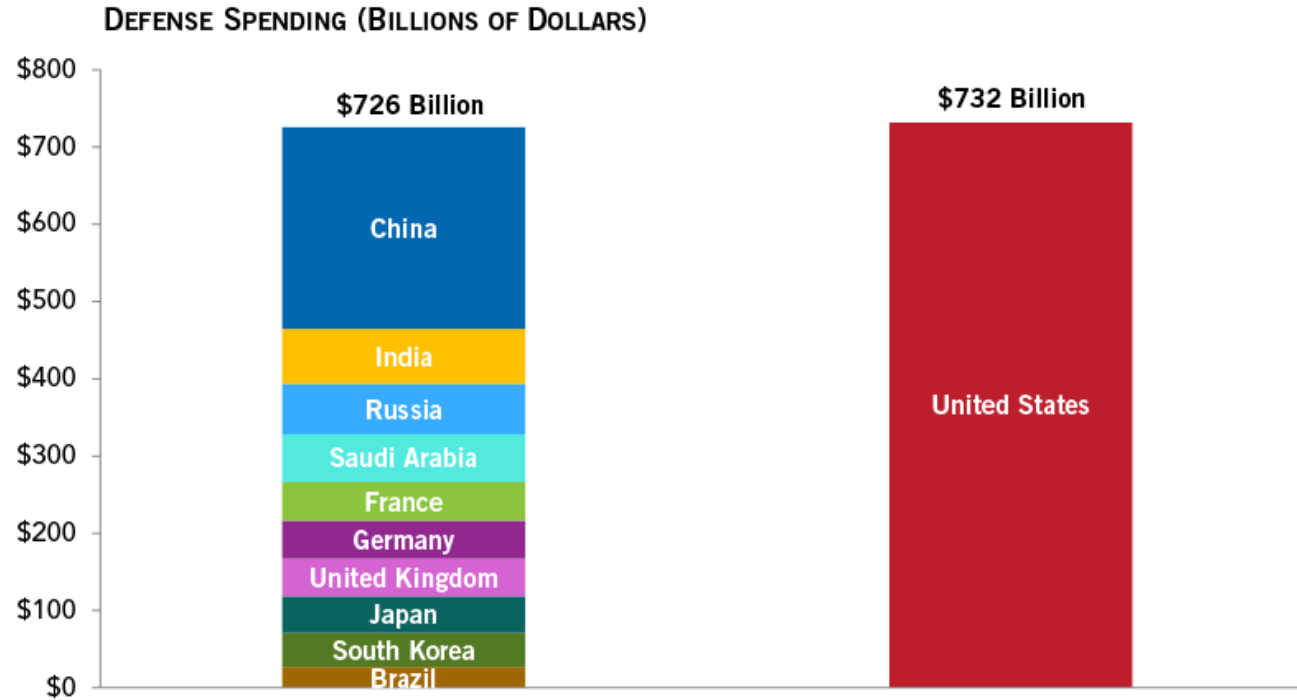

Seems prevalent?

Socialism in the USA

PETER G.
PETERSON
FOUNDATION

The United States spends more on defense than the next
10 countries combined

SOURCE: Stockholm International Peace Research Institute, *SIPRI Military Expenditure Database*, April 2020.

NOTES: Figures are in U.S. dollars converted from local currencies using market exchange rates. Data for the United States are for fiscal year 2019, which ran from October 1, 2018 through September 30, 2019. Data for the other countries are for calendar year 2019. The source for this chart uses a definition of defense spending that is more broad than budget function 050 and defense discretionary spending.

PGPF.ORG

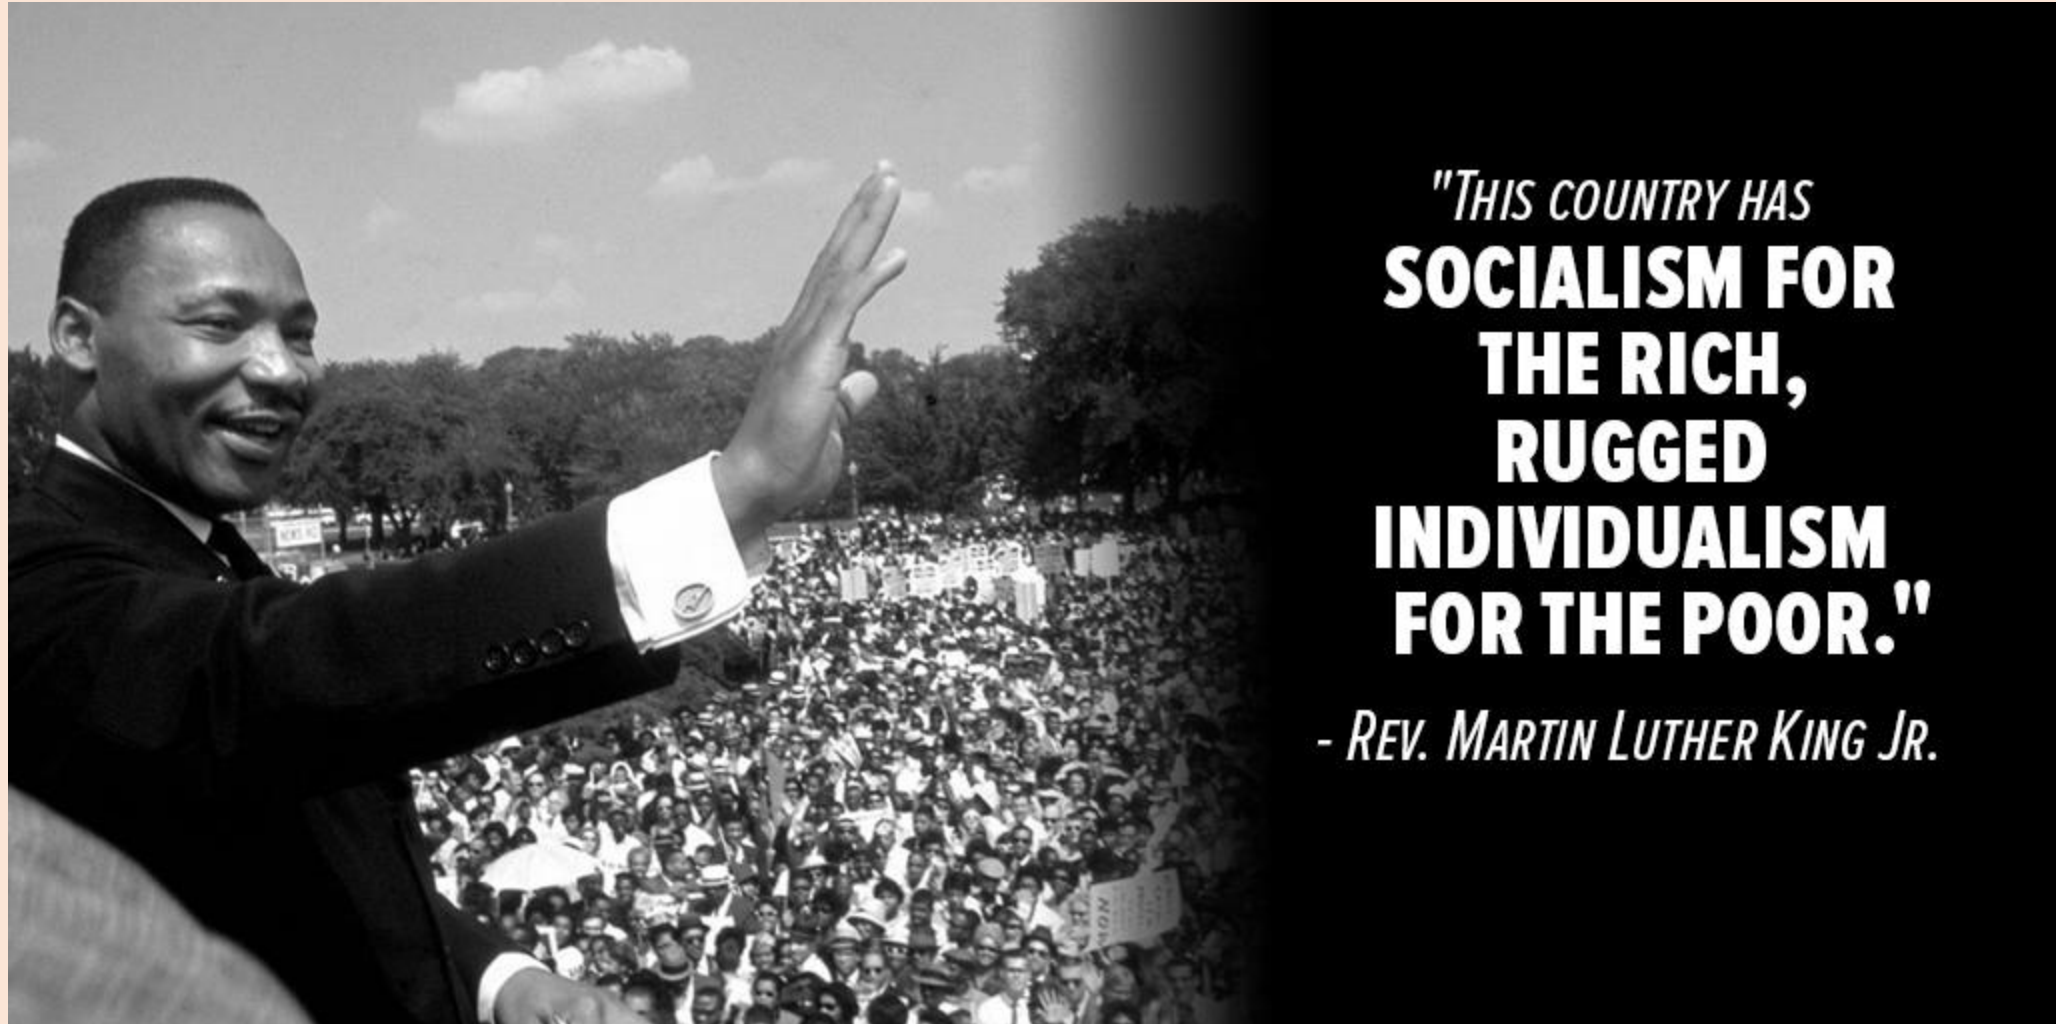

We heavily socialize military.

Who said this?

*"THIS COUNTRY HAS
SOCIALISM FOR
THE RICH,
RUGGED
INDIVIDUALISM
FOR THE POOR."*

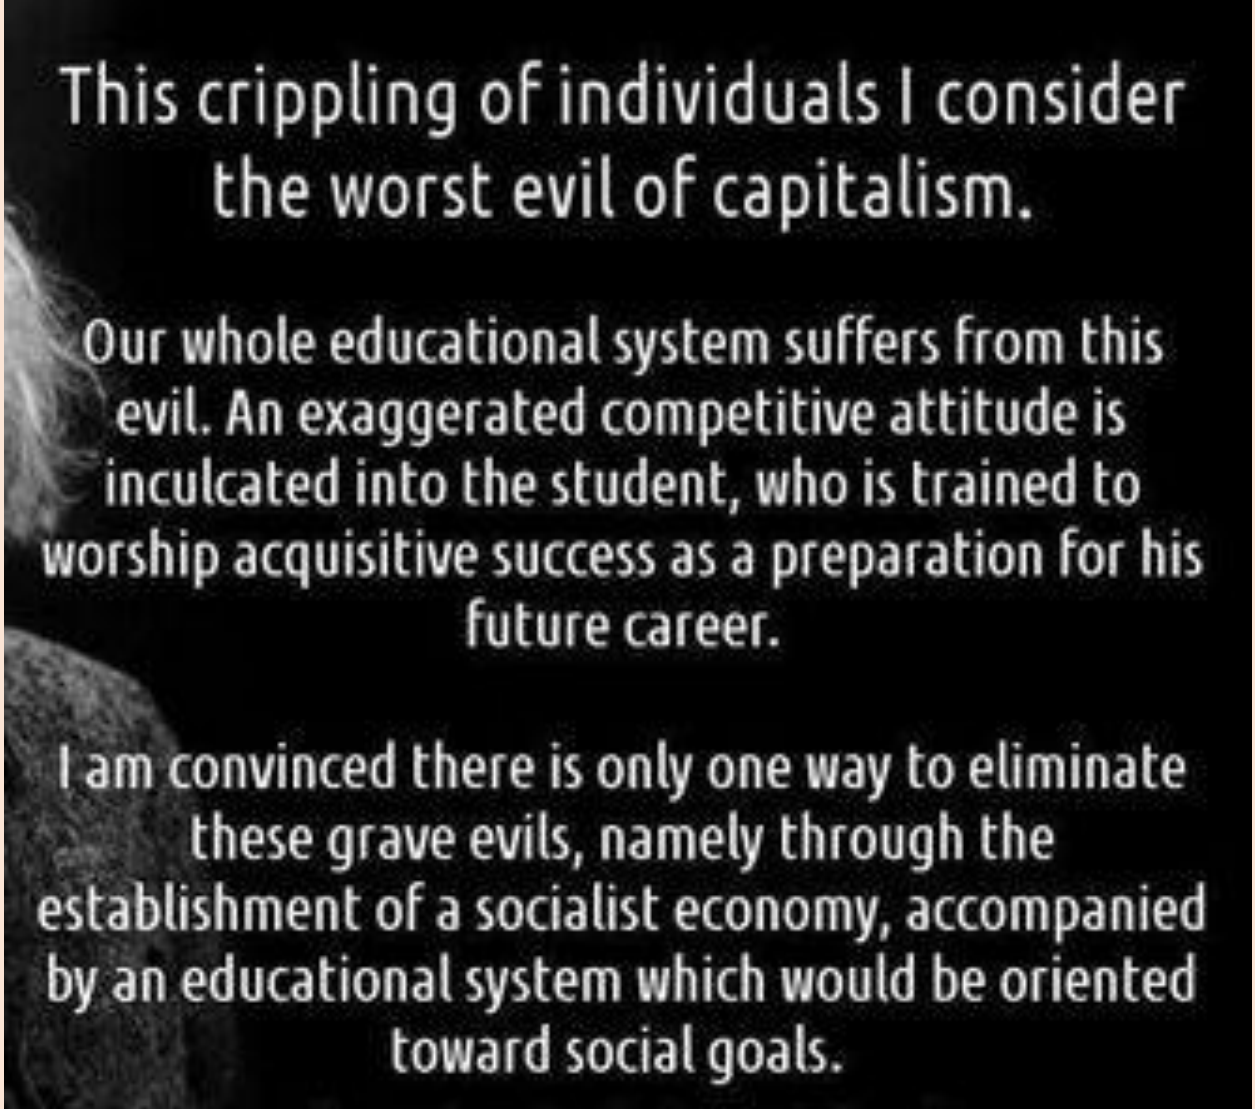

Hint: A dream.

Martin Luther King Jr.

We'll pay him a visit later!

Who said this?

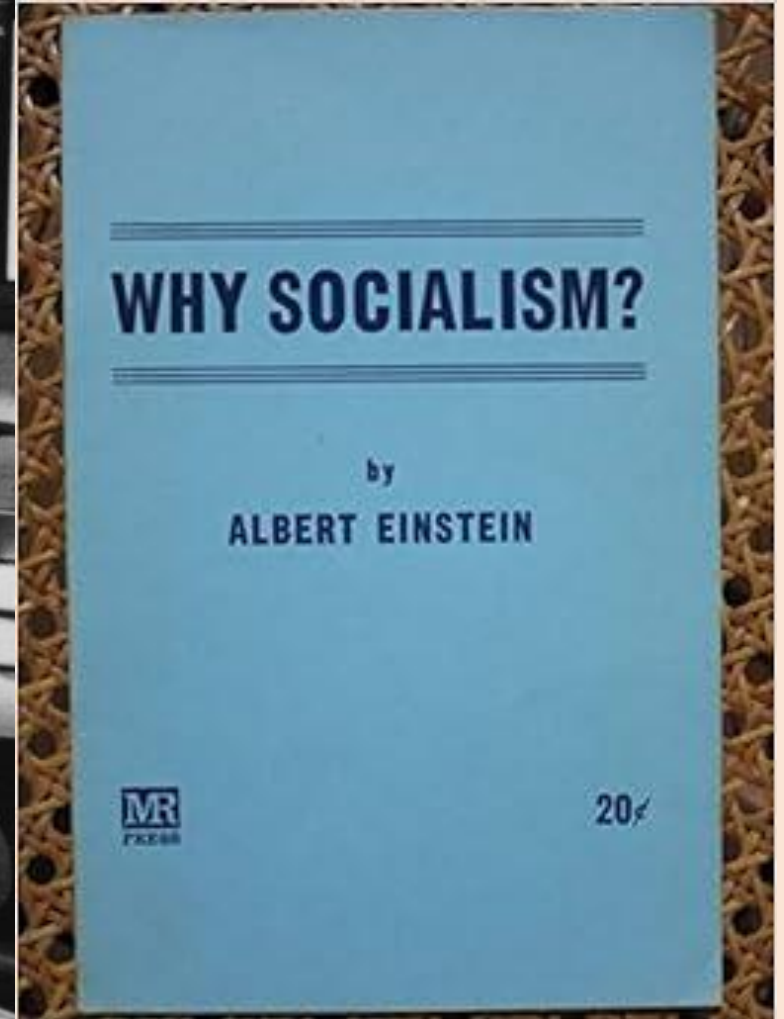

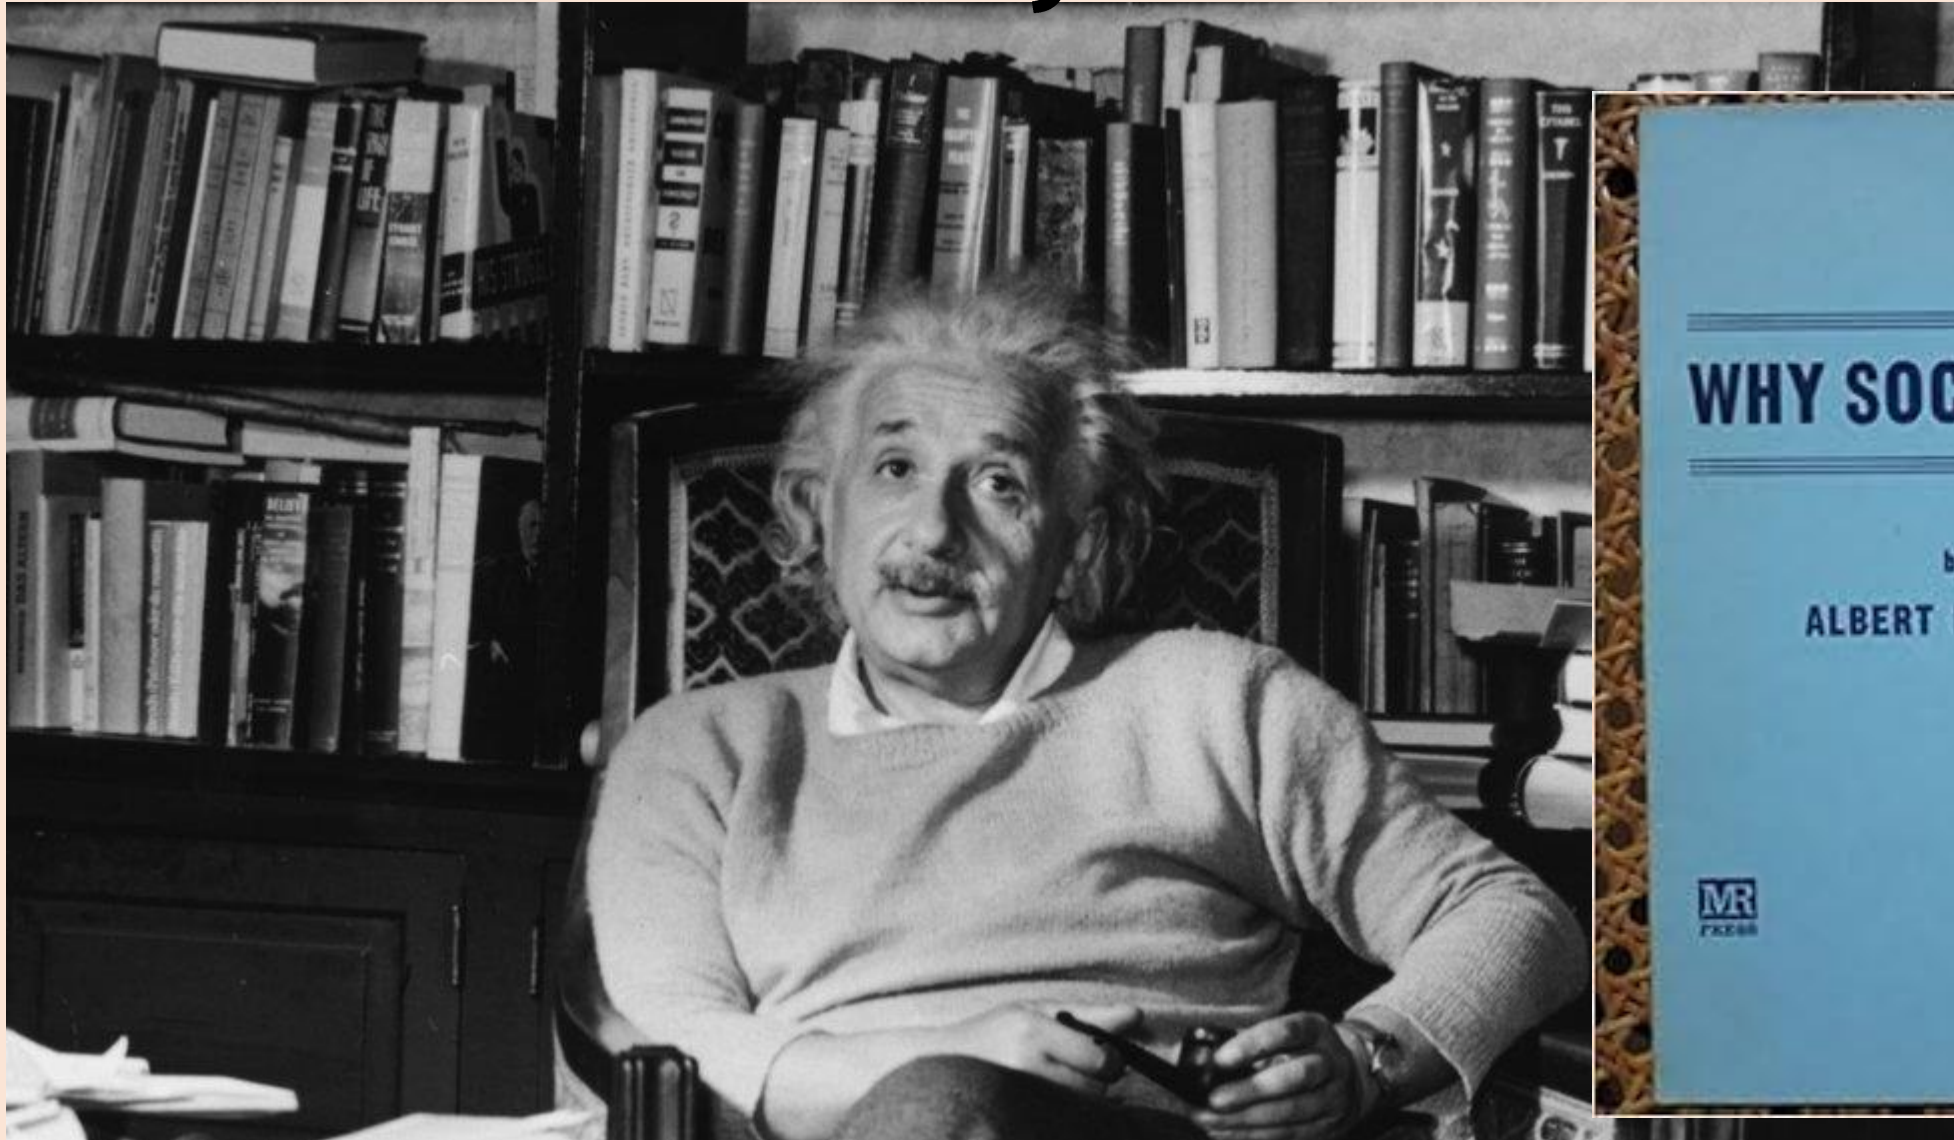

This crippling of individuals I consider
the worst evil of capitalism.

Our whole educational system suffers from this
evil. An exaggerated competitive attitude is
inculcated into the student, who is trained to
worship acquisitive success as a preparation for his
future career.

I am convinced there is only one way to eliminate
these grave evils, namely through the
establishment of a socialist economy, accompanied
by an educational system which would be oriented
toward social goals.

Hint starts with A!

Why Socialism?

Albert Einstein

Socialism vs. Capitalism

Ownership	Predominantly social/collective ownership	Predominantly private ownership
Distribution	Based on contribution and need	Controlled by owners of production, driven by profit, not societal needs
Class Structure	Aims to reduce class distinctions	Inherently creates and maintains class distinctions
State Role	Ranges from large state involvement to decentralized worker/community control	Selective state intervention favoring owners of capital
Social Welfare	Strong emphasis on social welfare	Social welfare often secondary to profit
Decision making	Based on equal social needs	Based on profit-seeking, benefiting a few

Socialism

Communism

System Type

Economic system

Economic and political system

Ownership

Mix of public and private ownership

Complete collective ownership

Distribution

Equitable distribution based on contribution and need

Distribution based on absolute equality and need

Class Structure

Aims to reduce class distinctions

Seeks to eliminate all class distinctions

State Role

Significant state intervention; can coexist with democratic political systems

State initially plays a role but eventually withers away

Implementation

Achieved through democratic means and gradual reforms

Often associated with revolutionary change

Capitalism vs. Socialism vs. Communism

System	Power and Decision-Making	Real-Life Example
Capitalism	Based on profit-seeking , benefiting a few	   Microsoft
Socialism	Based on equal social needs	
Communism	Based on collective needs in a classless society	

Capitalism vs. Socialism vs. Communism

System	Power and Decision-Making	Real-Life Example
Capitalism	Based on profit-seeking , benefiting a few	Tech Corporation: A large tech company like Apple, Google, or Microsoft where major decisions are made by a small group of executives and shareholders, focusing on maximizing profits.
Socialism	Based on equal social needs	Tech Coop: A worker-owned tech cooperative like Agaric where all members have equal voting rights and decisions are made democratically.
Communism	Based on collective needs in a classless society	Anime Fansubbing Community: A volunteer-run Discord server where members contribute their skills (translation, editing, timing) to create subtitles for anime. All work is done collaboratively, decisions are made through group consensus, and the final product is shared freely with the community.

Focusing on Design Justice to.....

Do it justice.

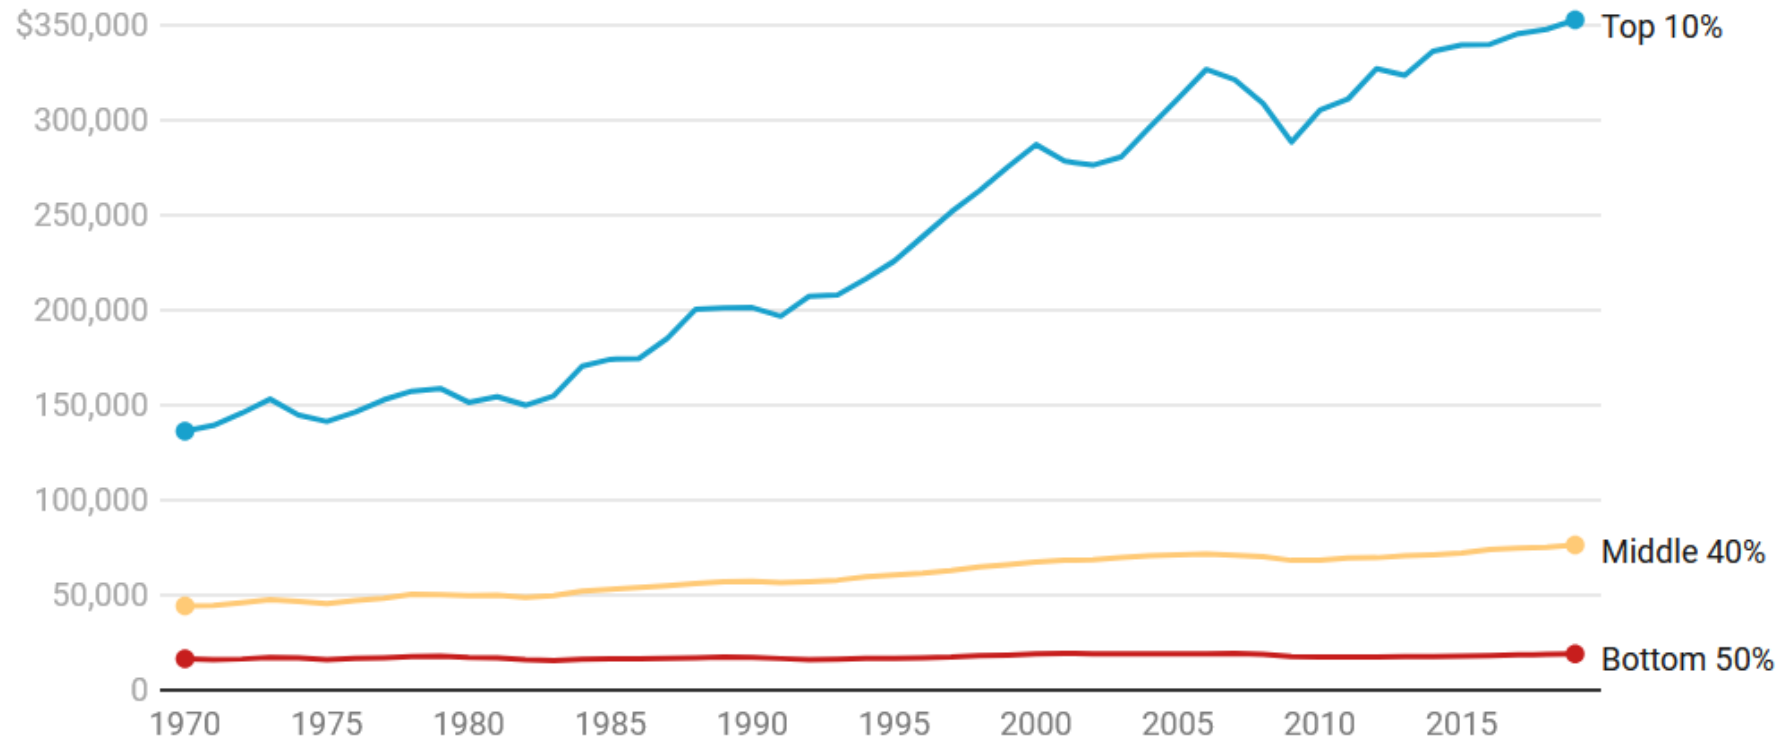

And put us in it.

Because

**Clearly the current system is not working-
for everyone.**

Remember this?

Average US Adult Income, by Percentile, 1970-2019

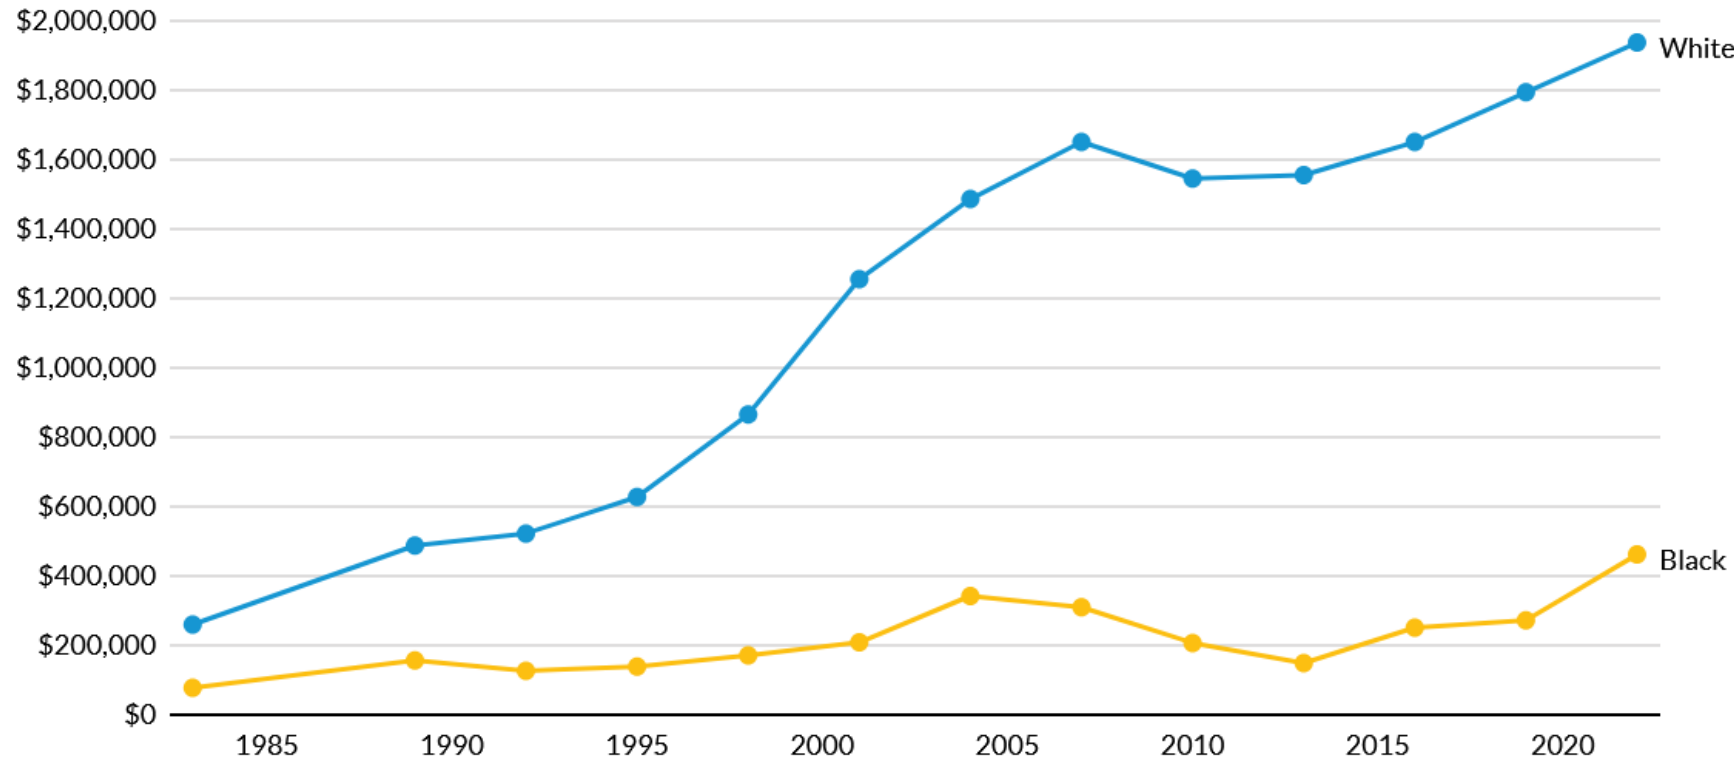

Note: Shown in constant 2019 US dollars. National income for individuals aged 20 and over, prior to taxes and transfers, but includes pension contributions and distributions.

Chart: by HandsOnDataViz • Source: [World Inequality Database 2020](#) • [Get the data](#) • Created with [Datawrapper](#)

So clearly the system is working as designed.

Average Family Wealth among People Born between 1943 and 1951, by Race, 1983–2022

Source: Urban Institute calculations from the Survey of Consumer Finances 1983–2022.

Notes: 2022 dollars. The Hispanic sample size is too small to show. Age is the head of household's age. In 2022, these people were ages 71 to 79, and in 1983, they were ages 32 to 40. We used inflation adjustment factors from [Changes in U.S. Family Finances from 2019 to 2022: Evidence from the Survey of Consumer Finances](#).

<https://www.ideo.org/>

Revisiting Design Justice to put us in it

Human-Centered Design

Logistics

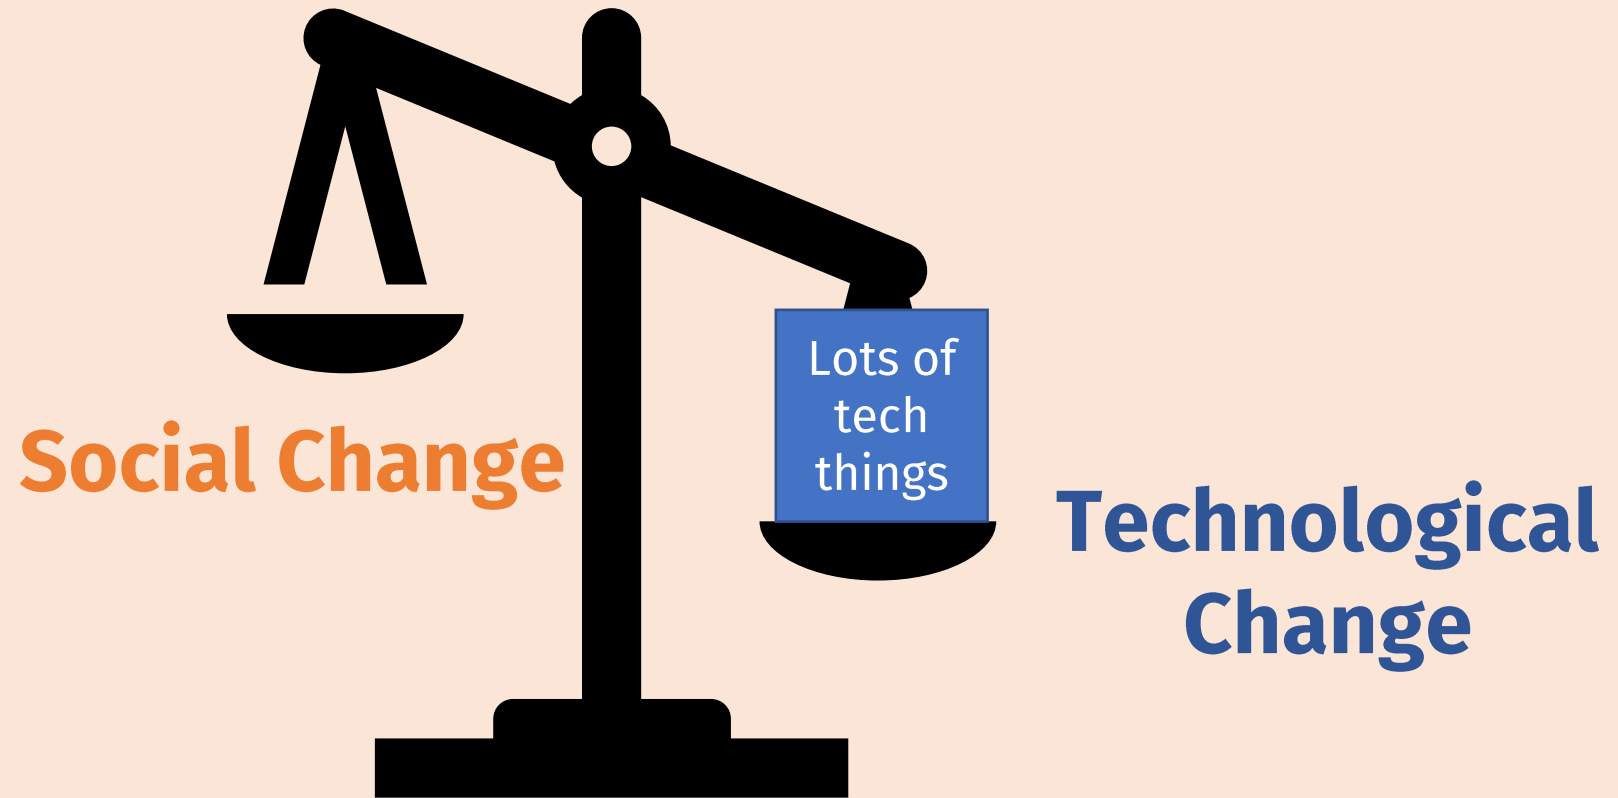

Design Justice

Data Justice

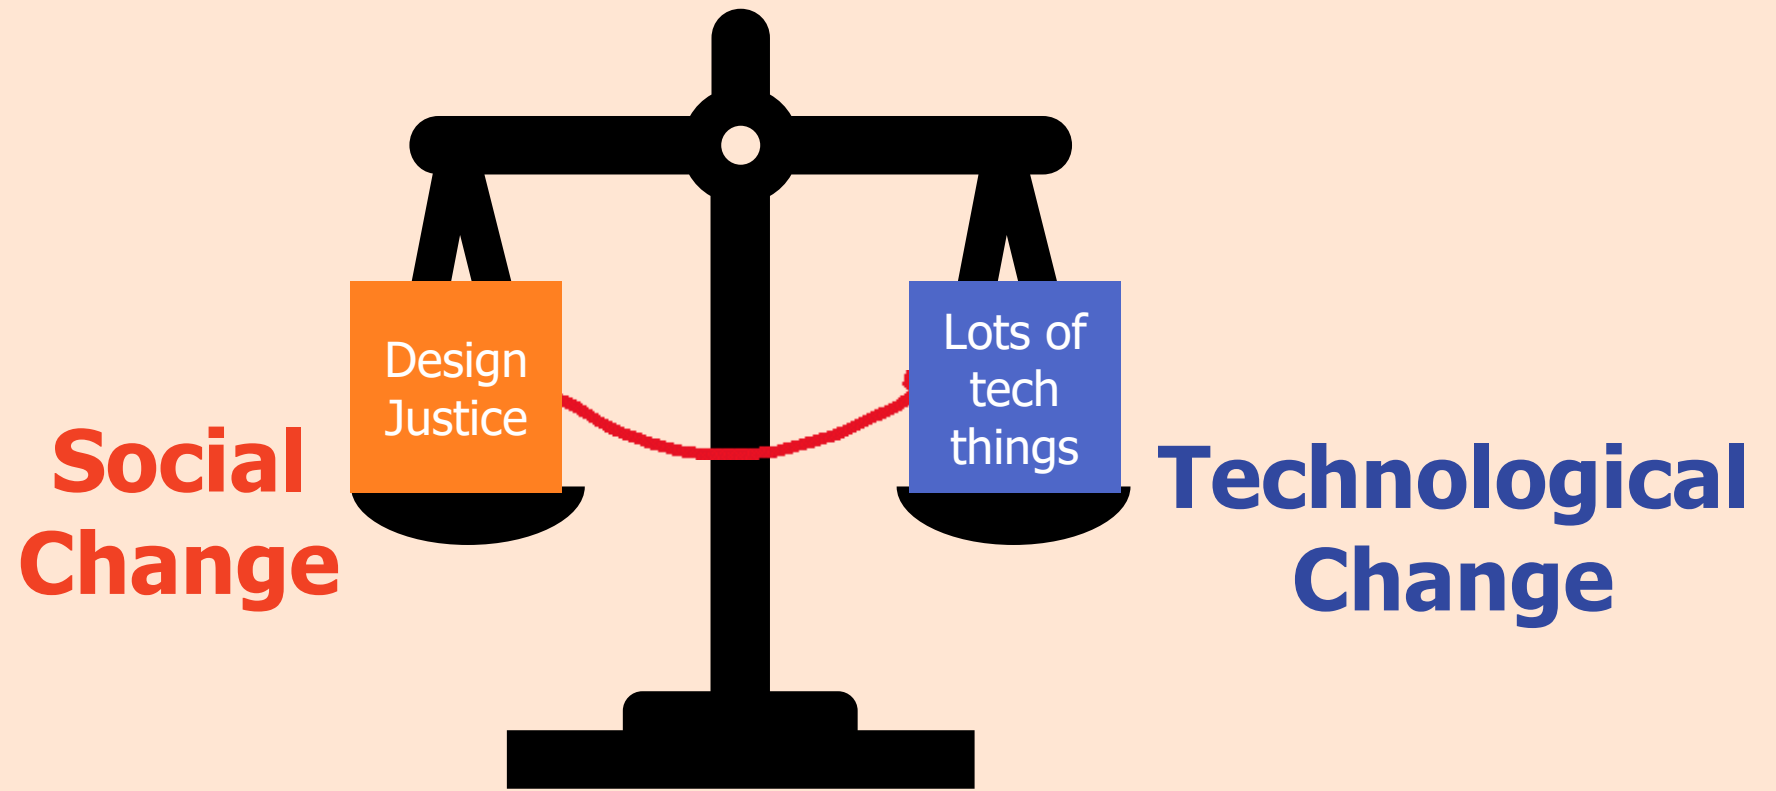

Design Justice is not an “ideal” or “theory”

Design Justice is a holistic solutions framework and approach to rebalance society and technology by focusing on marginalized communities

Recall, as a society this is where we are at:

This is where design justice framework comes in:

Sure, **design justice not the answer to everything, but it is a helpful approach to **rebalancing** society towards the marginalized**

Design Justice Principles

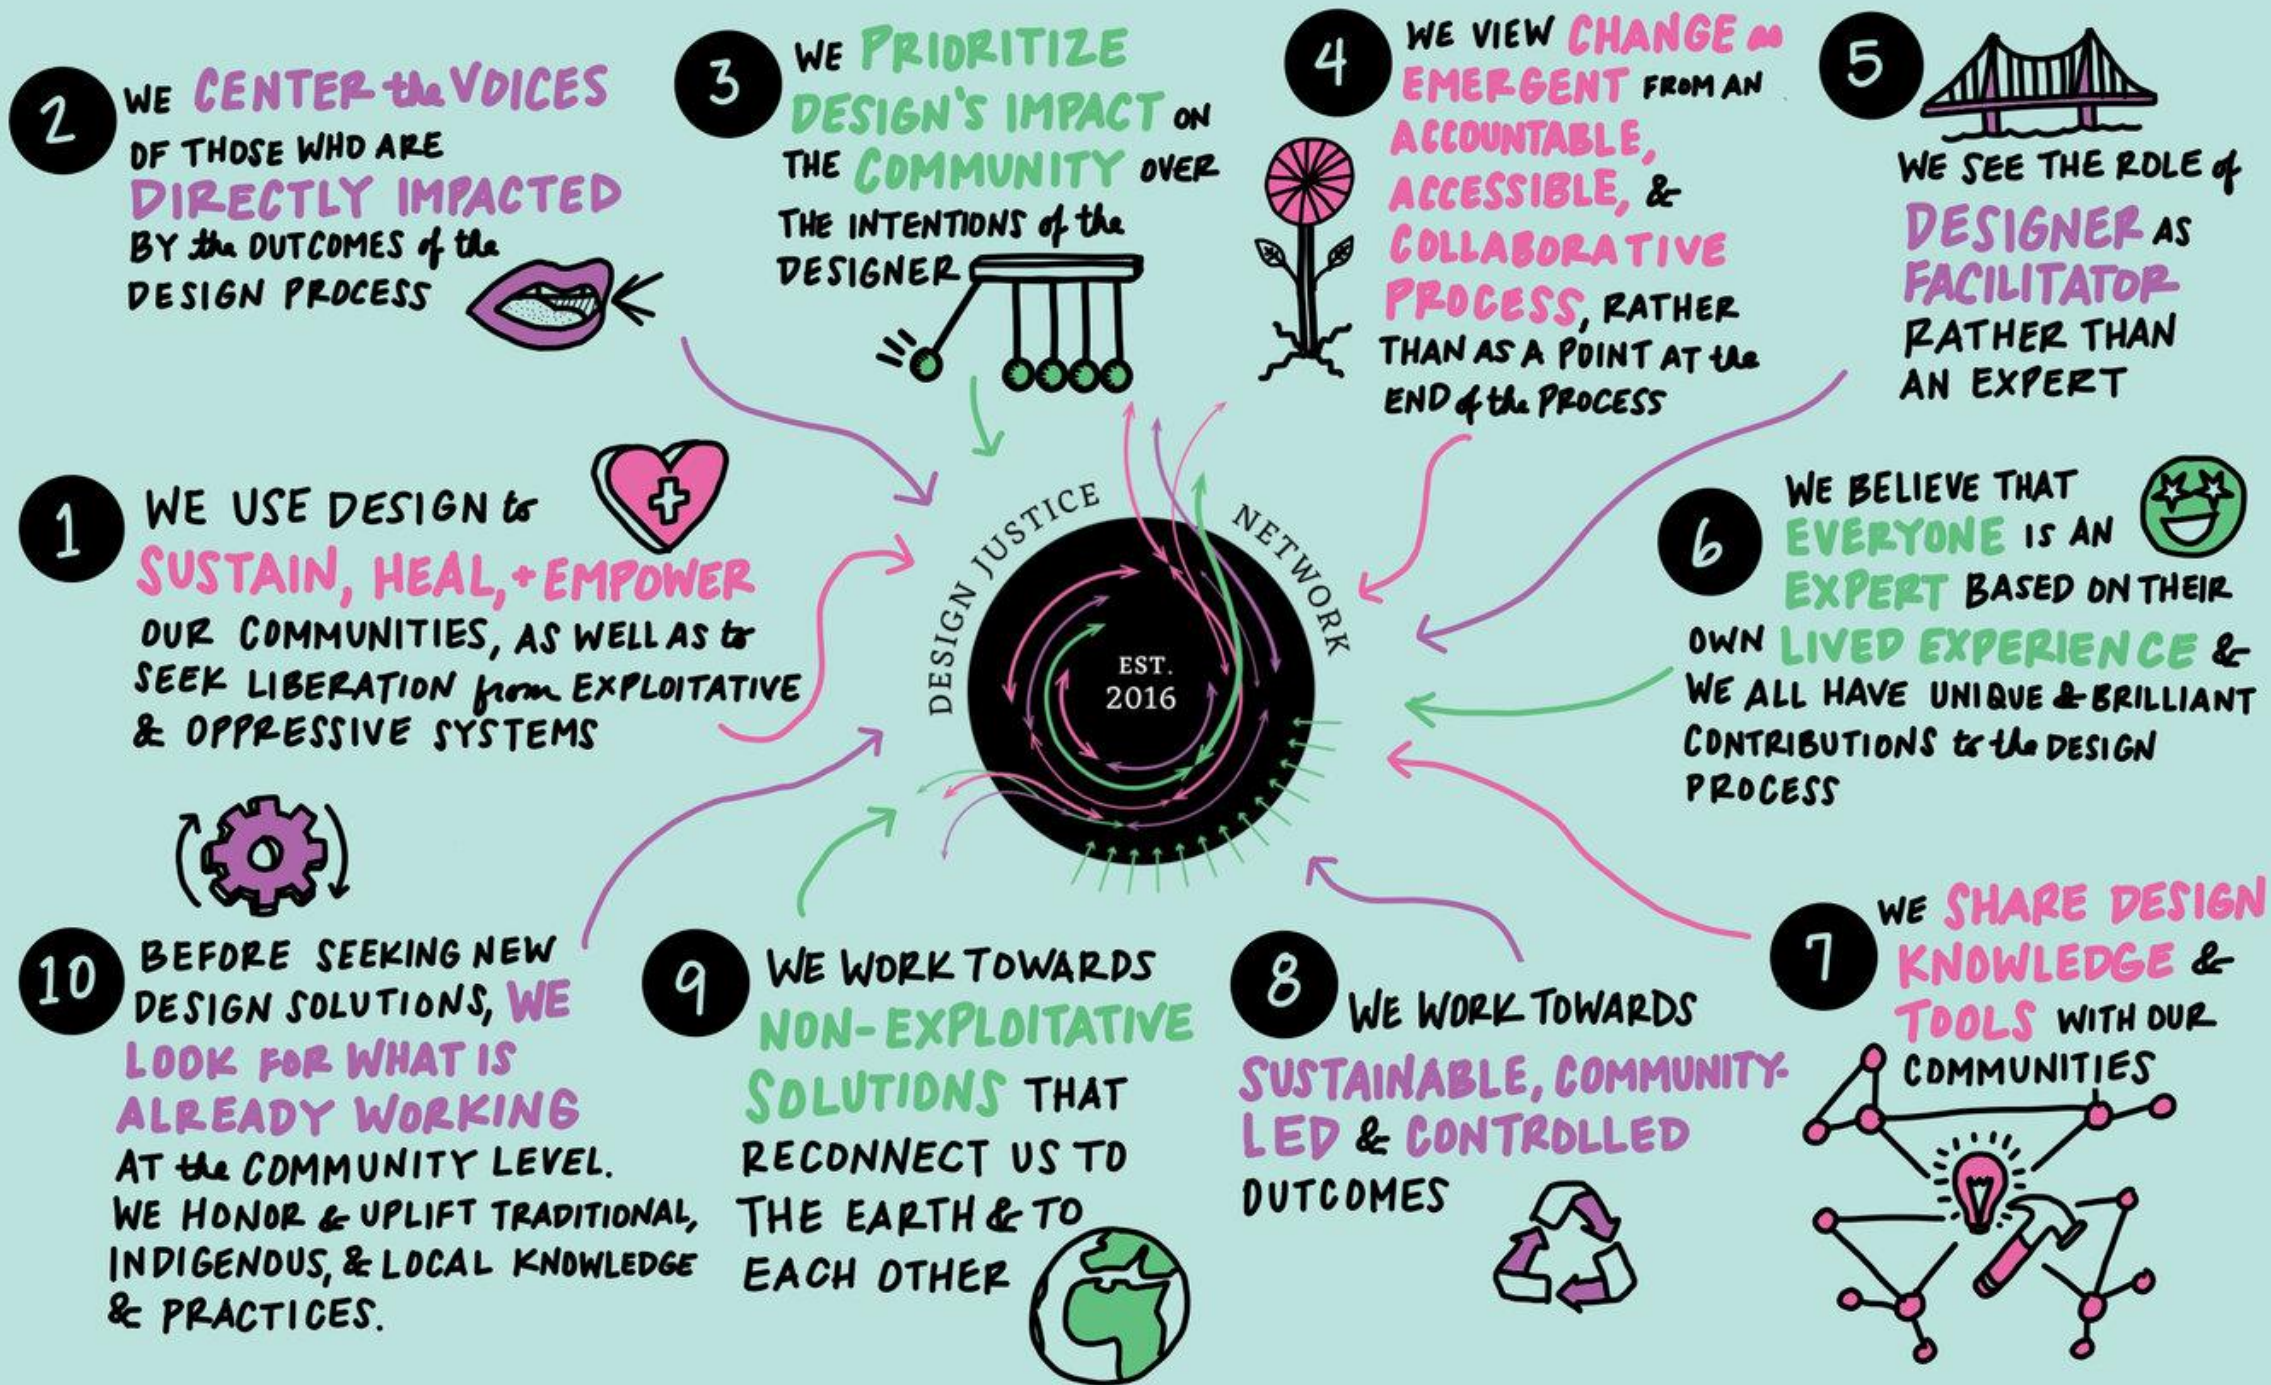

1. Use design to **sustain, heal, and empower** communities

2. **Center voices** directly impacted by design

3. **Prioritize** design's **impact on the community** instead of designer's intentions

5. **EVERYONE is an expert** based on their own lived experiences

FRAMEWORK & PRINCIPLES

Applying Design Justice

Why do I keep stressing we shouldn't be focused on “solutions” for group projects?

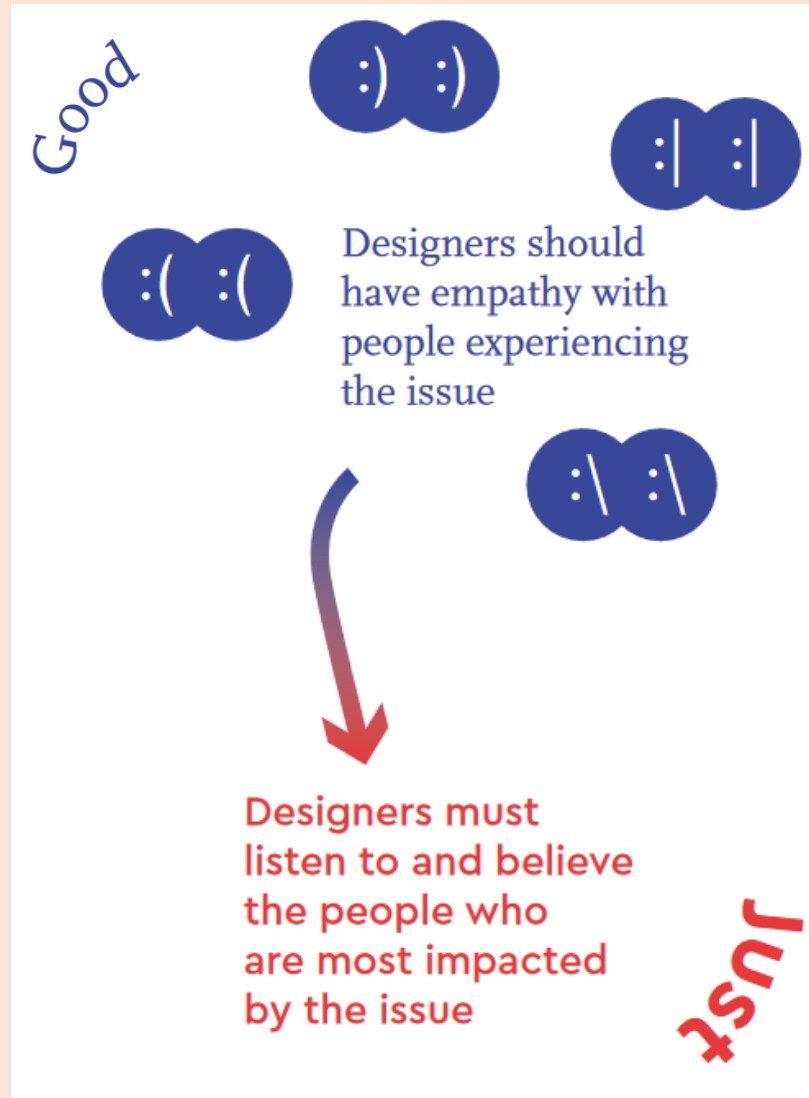

Begin by listening.

As our friends at Allied Media Projects urge in their network principles www.alliedmedia.org/about/network-principles, it's always best to begin any process — including an attempt to design for social justice — by listening to those who are most affected, and who have been working on it for years.

We must start by listening.

**Simply, I don't think it is possible to achieve
community **solutions** through surveys and
within 6 weeks**

Good vs. Just design

Design Justice would expand on your project's “**solutions**” aspect.

But if you want to design “solutions”....

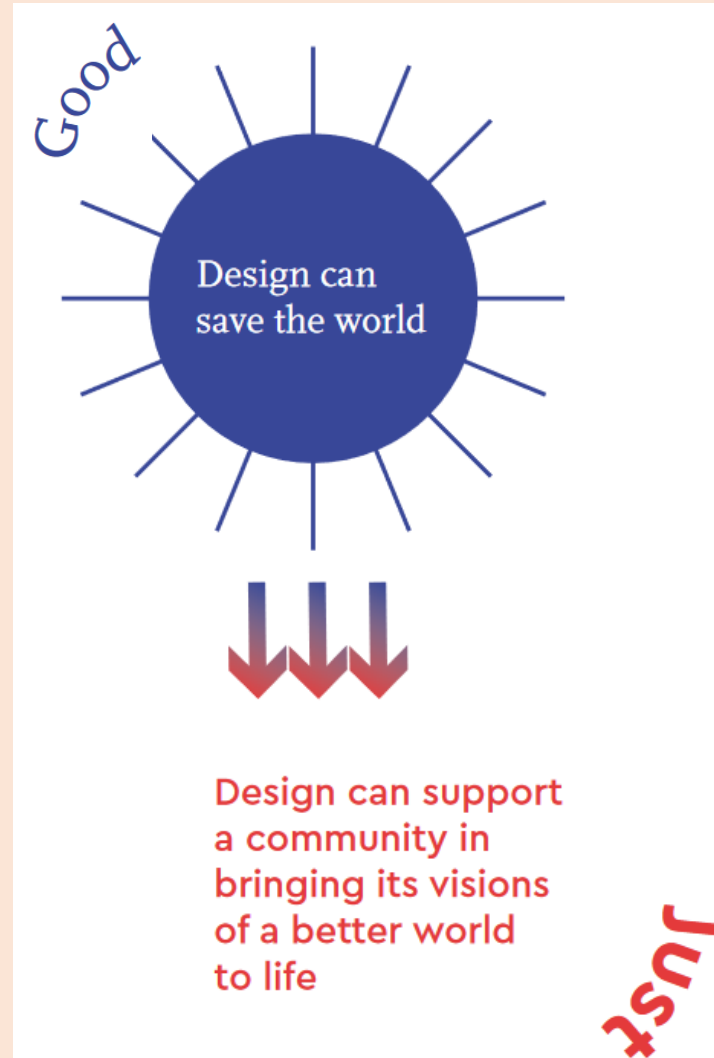

We have reimagined the role
of the designer as a facilitator,
rather than an expert.

[Design Justice Issue 3, Design Justice In Action \(2018\)](#)

We must learn to be a facilitator first!

Good vs. Just design

Critical Collaboration

Humble yourself. Design with, not for.

- **Everyone is an expert in their own experiences**
- **Addressing injustice through design means elevating the voices of people most affected by the issues and working collaboratively towards solutions.**

Going back to your group project

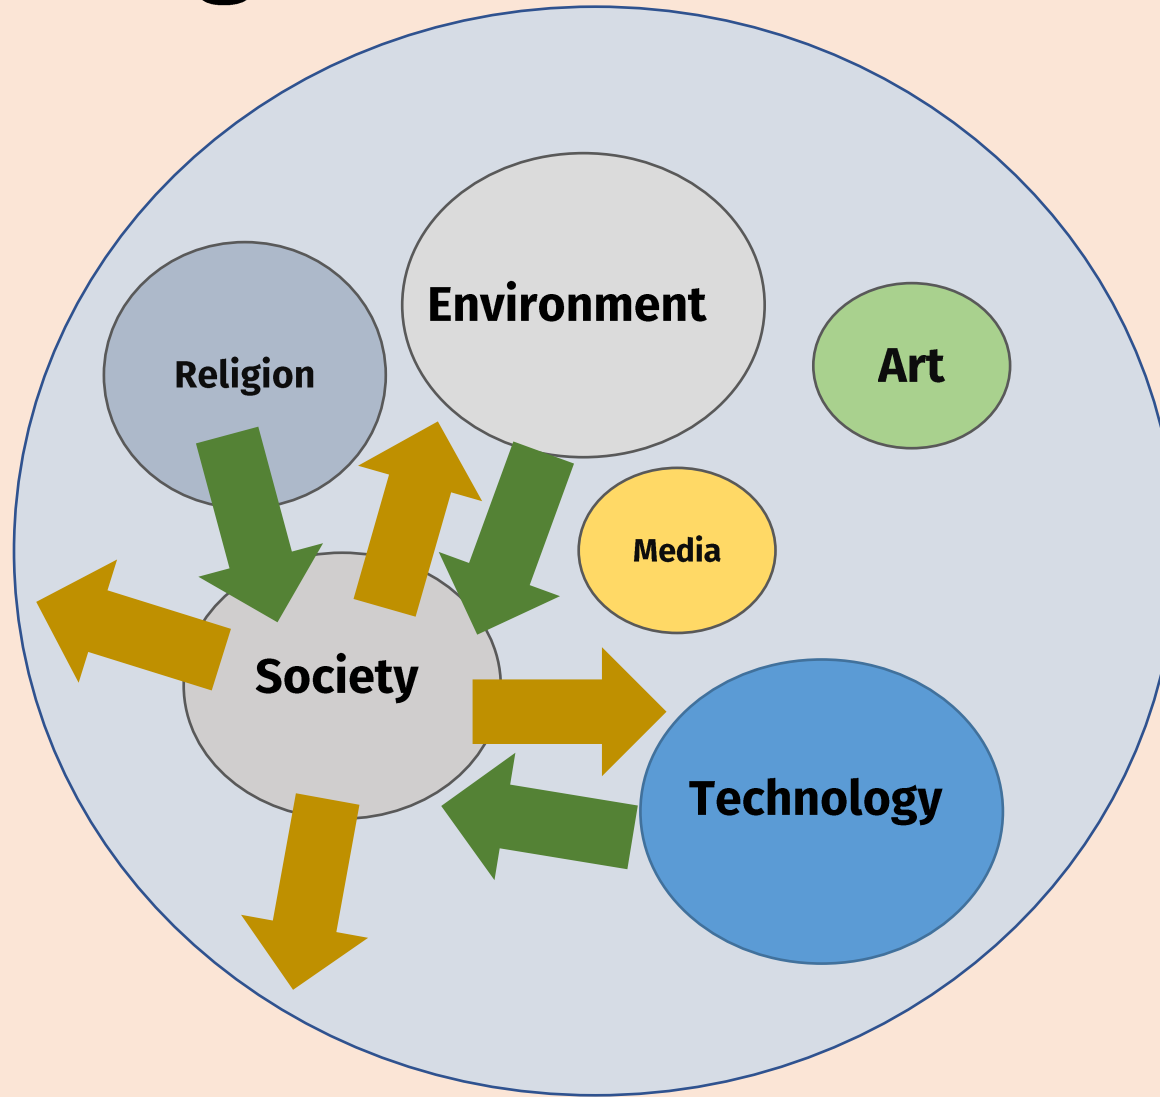

Reflect on these questions

- How **close am I** to the issue at hand?
- Does this **community want me** to work on this project?
- **Am I the appropriate person** to work on this project?
- How can **I step back and facilitate** the design of solutions by the community?

Sure, design justice is a helpful approach to rebalancing with not falling into the technological determinism trap.

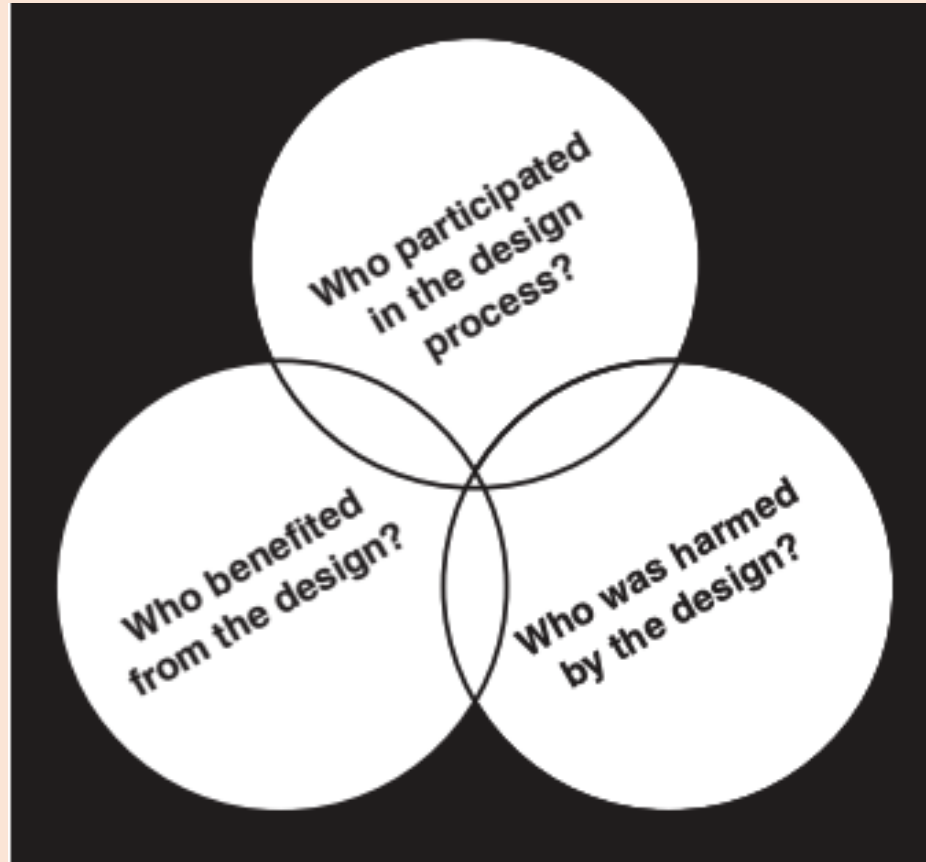

Why?

Design Justice....

Pushes back from the interplay of other forces, by healing, sustaining, and empowering civil society

The Los Angeles Police Department, citing privacy and data ownership concerns, has ended its agreement to use Flock Safety license plate readers, authorities said Monday, July 13.

In 2023, the department signed a three-year agreement with the Atlanta-based company to install 138 of its pole-mounted cameras within the city, according to a report to be discussed at a Tuesday Board of Police Commissioners meeting. That agreement expired Saturday, July 11.

Why bring up data justice now?

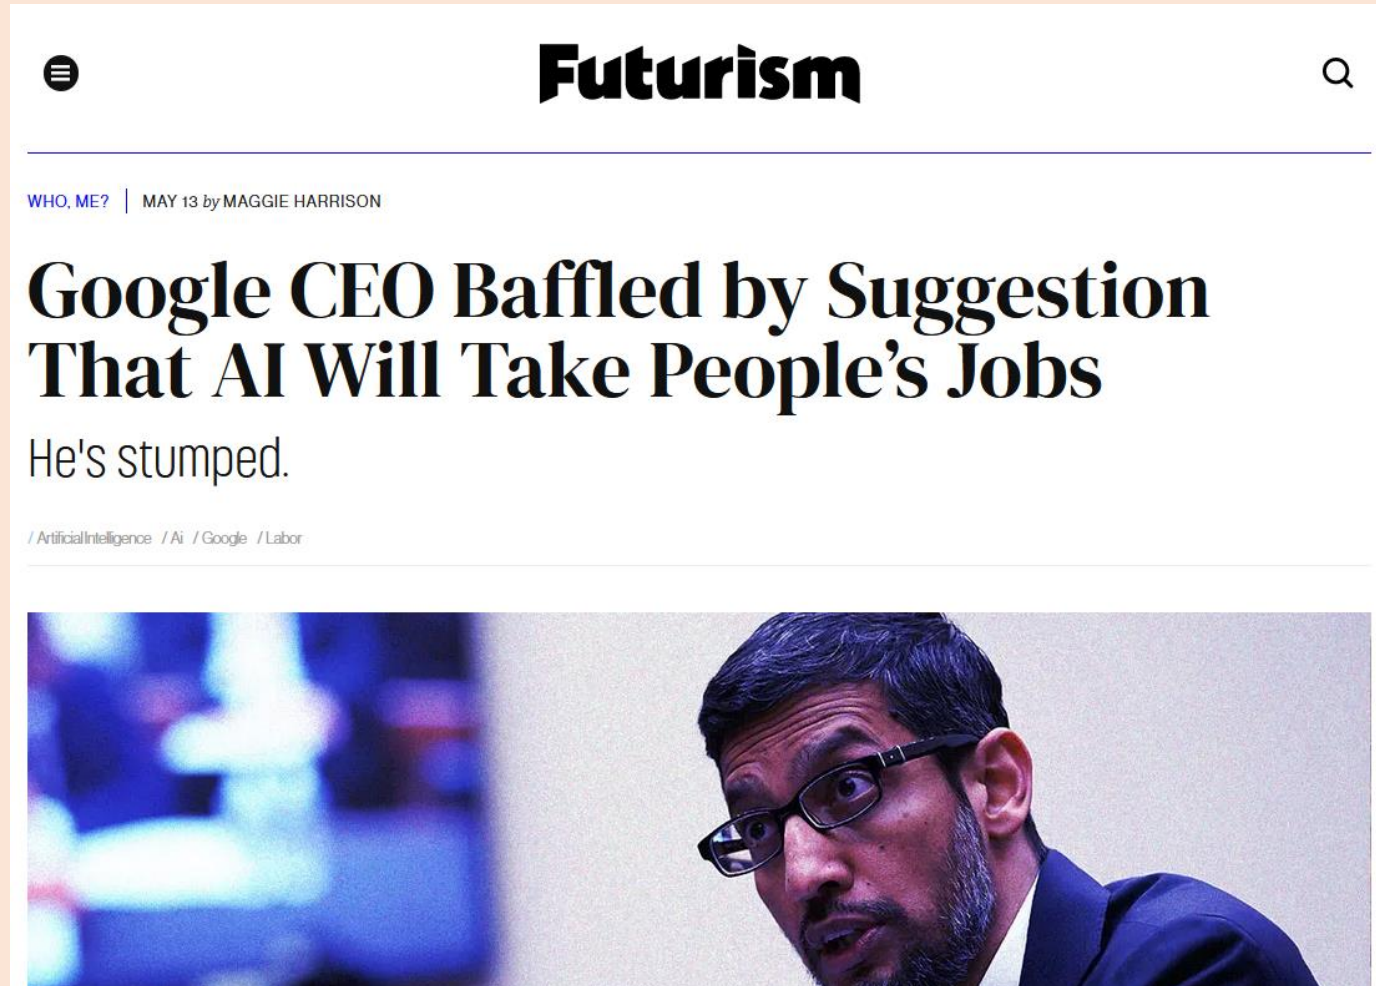

"Google has unveiled its vision for how it will incorporate AI into search," [tweeted The Verge's James Vincent](#). "The quick answer: it's going to gobble up the open web and then summarize/rewrite/regurgitate it (pick the adjective that reflects your level of disquiet) in a shiny Google UI."

Research [has shown that](#) information consumers hardly ever make it to even the second page of search results, let alone even the bottom of the page. And worse, it's not like Google's taking clicks away from its longtime information merchants by hiring an army of human content writers to churn out summarization. [Google's new search interface, which is built on a model that's already been trained by way of boatloads upon boatloads of unpaid-for human output](#), will seemingly be swallowing even more human-made content and spitting it back out to information-seekers, all the while taking valuable clicks away from the publishers that are actually doing the work of reporting, curating, and holding powerful interests like Google to account.

Chrome user search patterns and behaviors is being used to train all this!

Why bring up data justice now?

Unsurprising that “Google/Alphabet” took away the “Do no evil” slogan years ago..

Los Angeles Writers Guild Strike 2023

AI is part of the issue, but the main issue is about society being in equal.

Connecting Design Justice to Data Justice

[What is data justice? The case for connecting digital rights and freedoms globally](#)

Consider your surveys

(In)Visbility

- How are you making community data visible?
- How are you allowing data to be removed?

(Dis)engagement with technology

- Are participants allowed to use any technology? (Smart phone/web browser)
- How are you enabling participants to opt-out using technology but still participate?

Non-discrimination

- How can survey participants voice their concerns about how their data is being displayed?
- How can participants prevent discrimination?

A man in a dark tuxedo and bow tie is seated at a dark, rectangular table. On the table, from left to right, are a bottle of water, a glass, a microphone on a stand, and a white telephone. The background is dark and out of focus. The text "And now for something completely different" is overlaid at the bottom in a yellow, italicized font.

And now for something completely different

Revisiting Design Justice to put us in it

Human-Centered Design

Logistics

Lecture

Group Time

Group Exercise: Taking surveys

Group Peer Review Exercise

1. Go to this Google spreadsheet :

<https://docs.google.com/spreadsheets/d/1aINcljzXKlqguP3uYRjAsgRSmF75AkDeY9GPAGQYi64/edit?gid=1338599457#gid=1338599457>

2. Find your group read the user story in the memo.

3. With the user story in mind, take the survey.

Assignments

Due Wednesday 7/22:

1. Final Lab Assignment #4

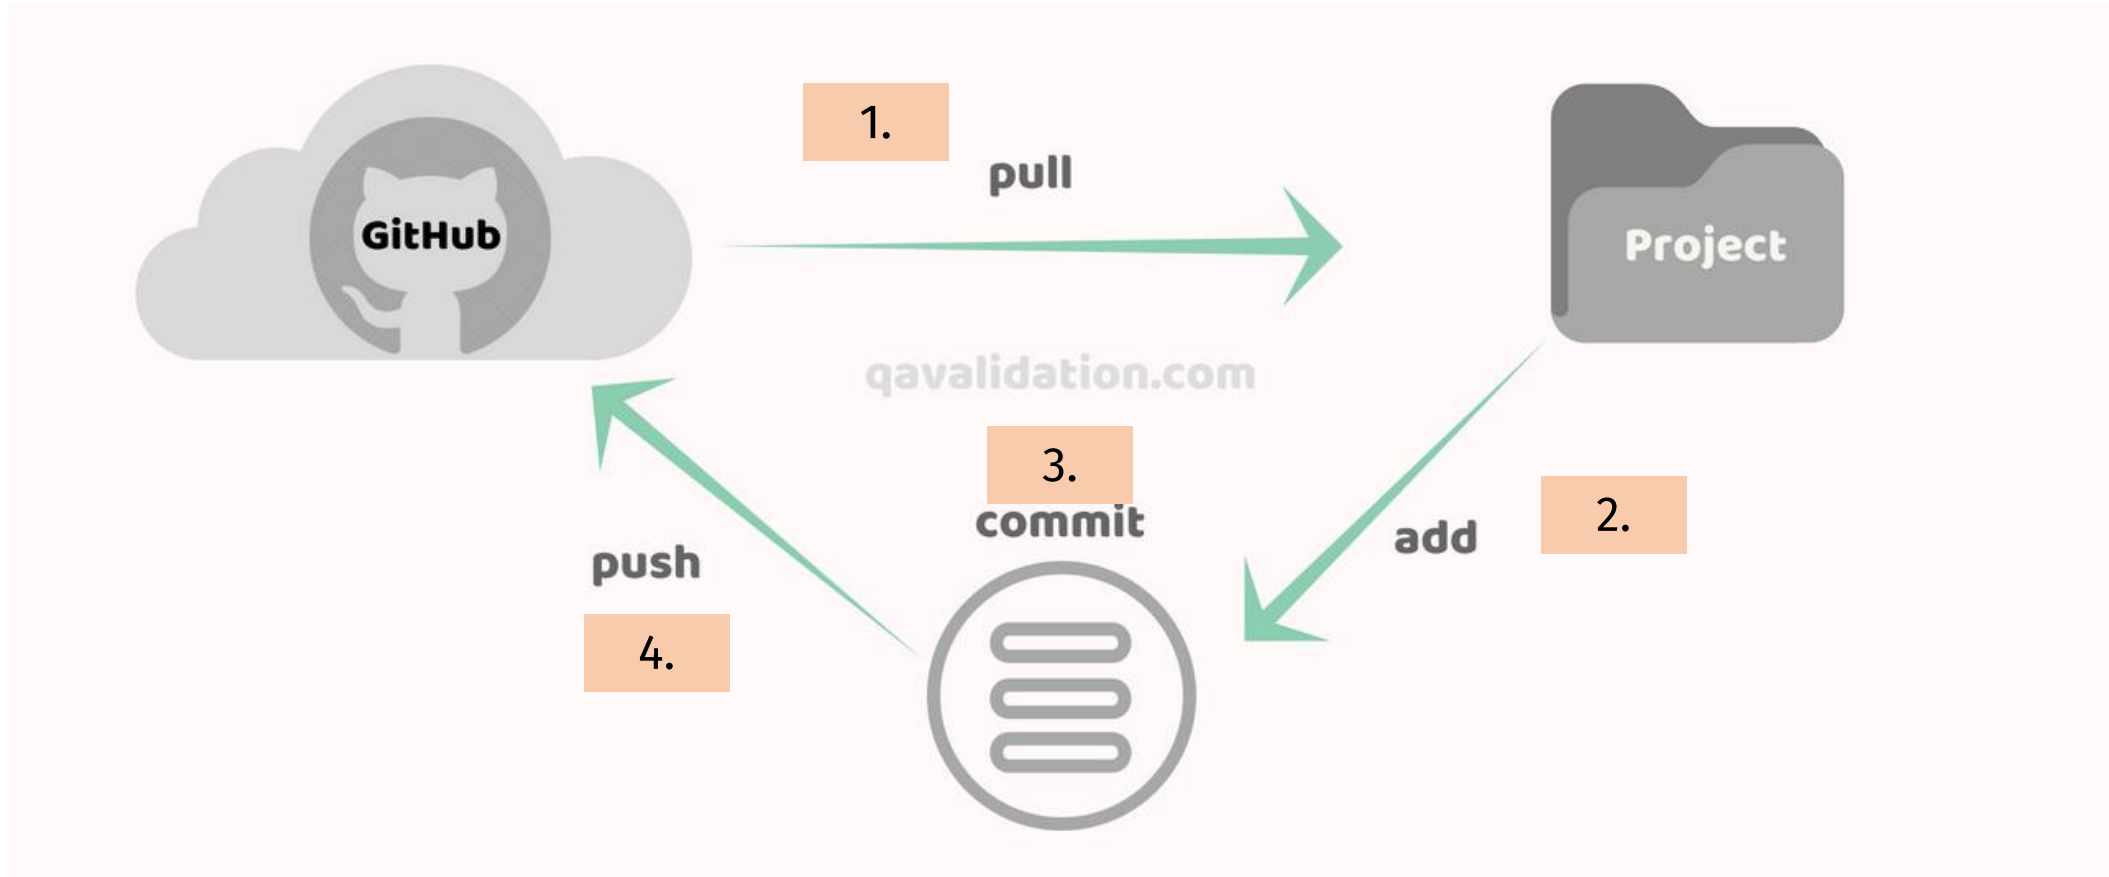

Due Monday 7/27:

1. Group Assignment #4 – Rough Draft

Due Wednesday 7/29:

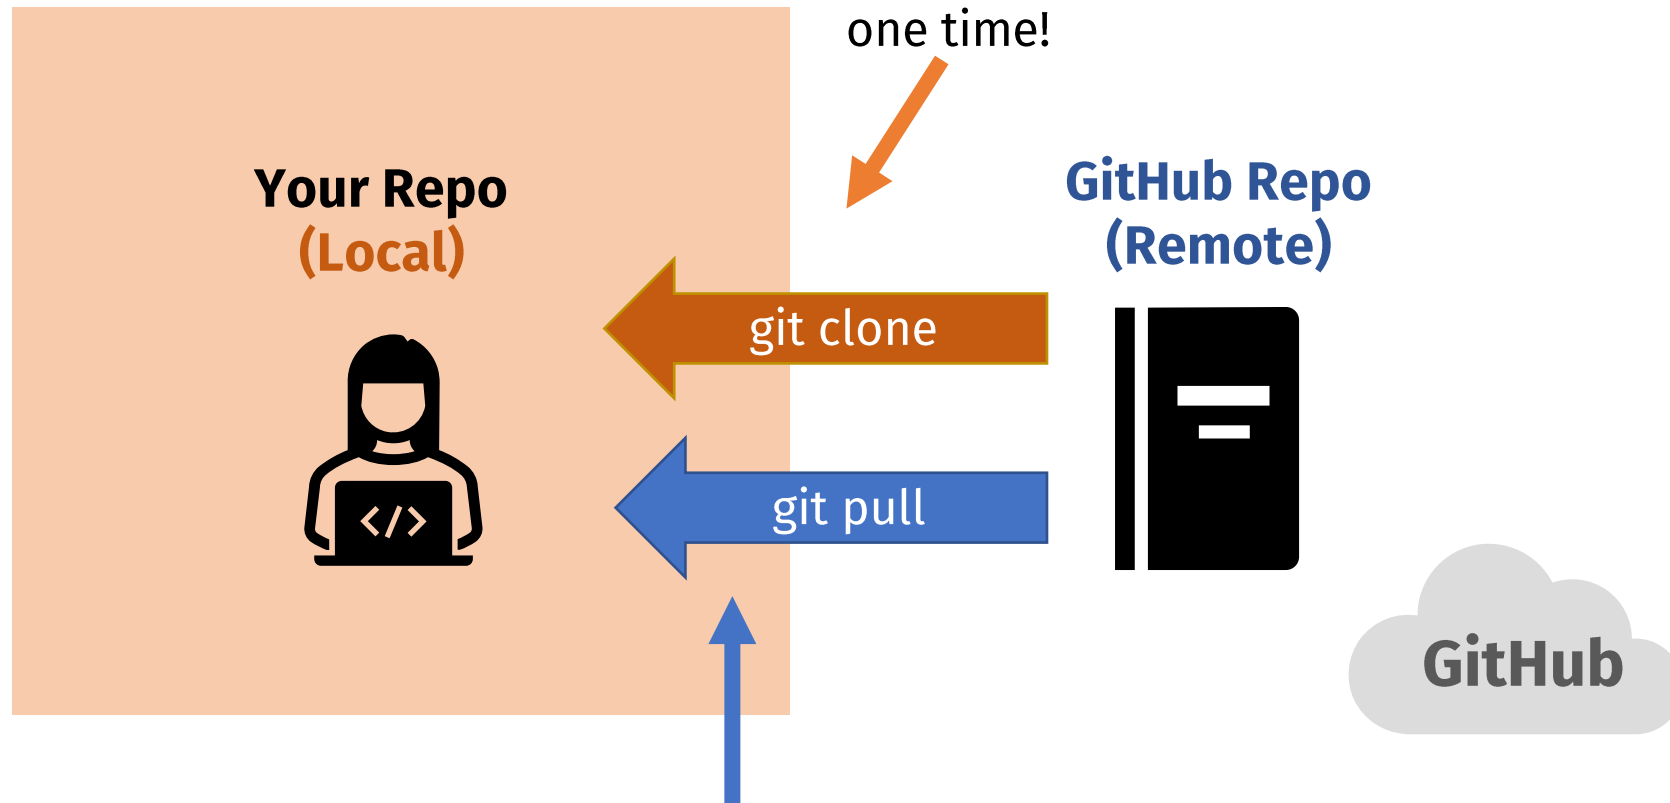

1. Final Thinking Cap
2. Final Project

The git process

1. Pull changes
2. Add changes
3. Commit changes (with a message)
4. Push changes

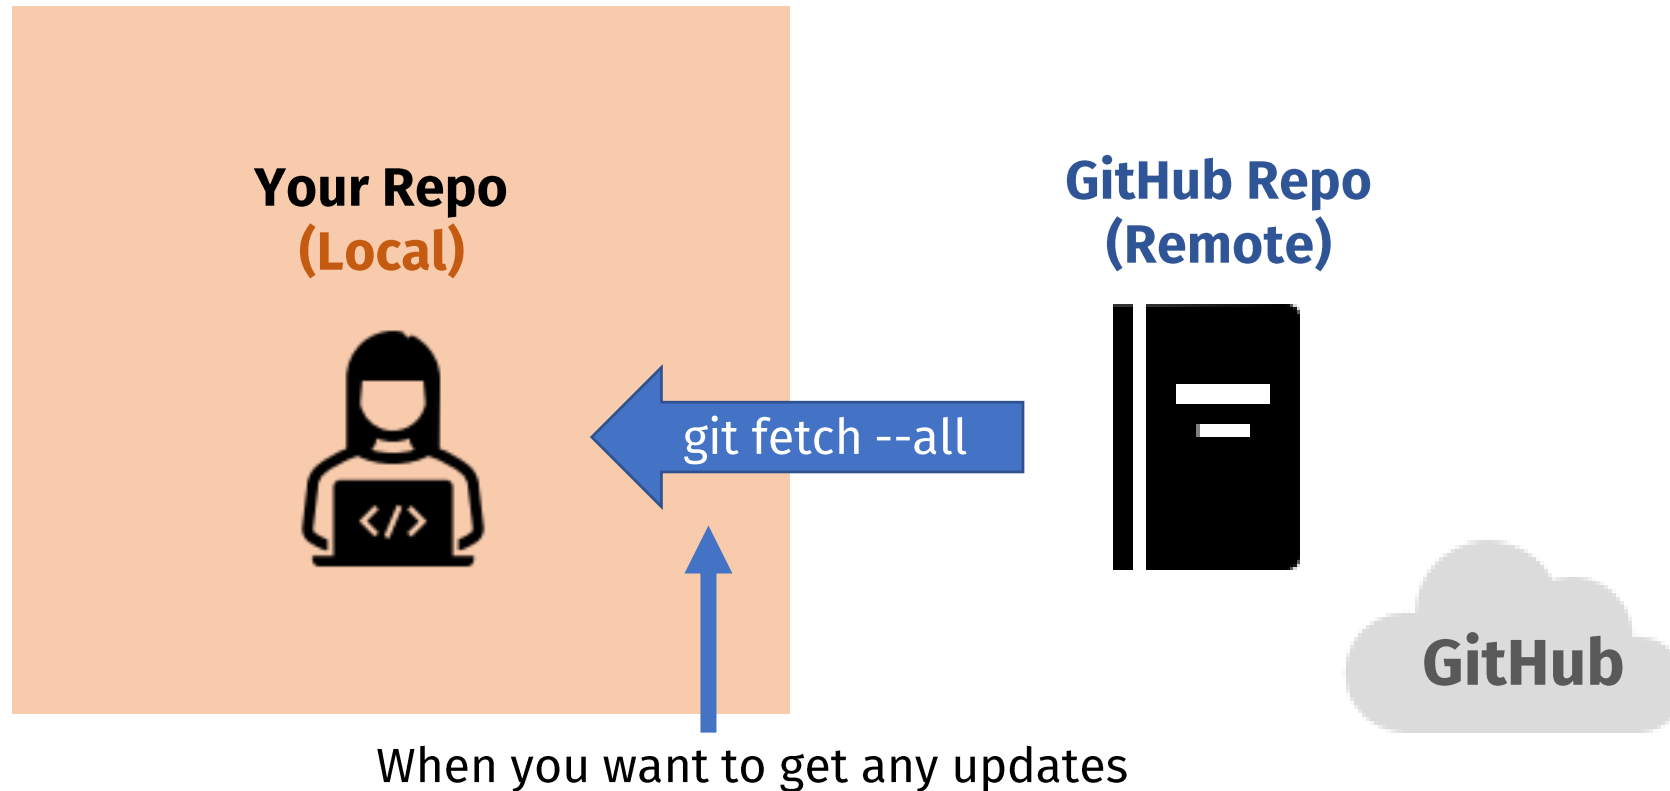

git cloning/git pull

When you want to get updates

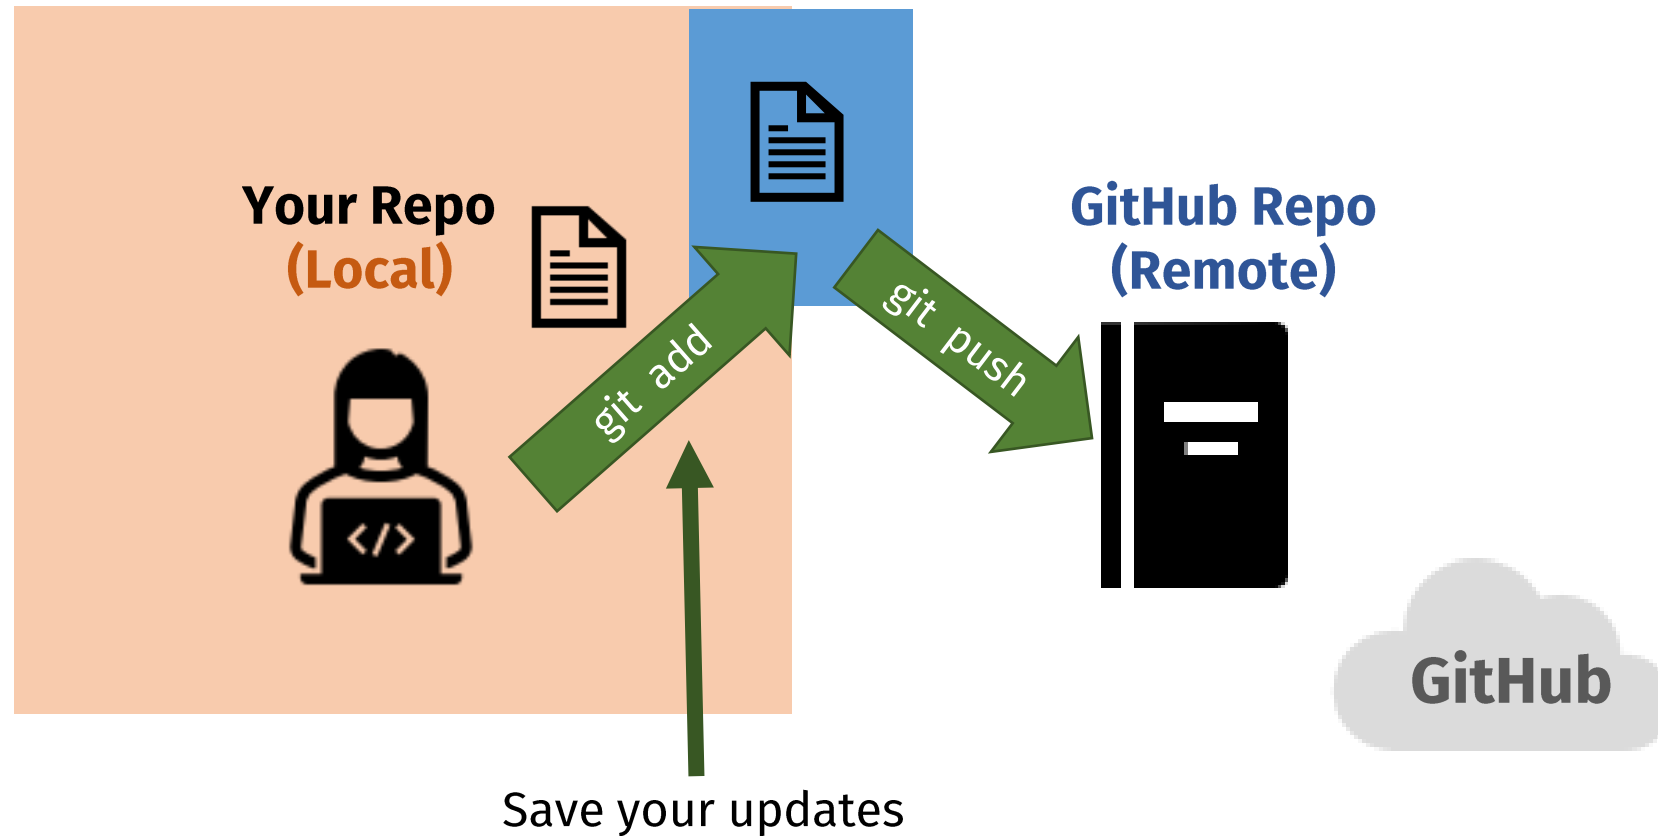

“Getting code”

git fetch --all

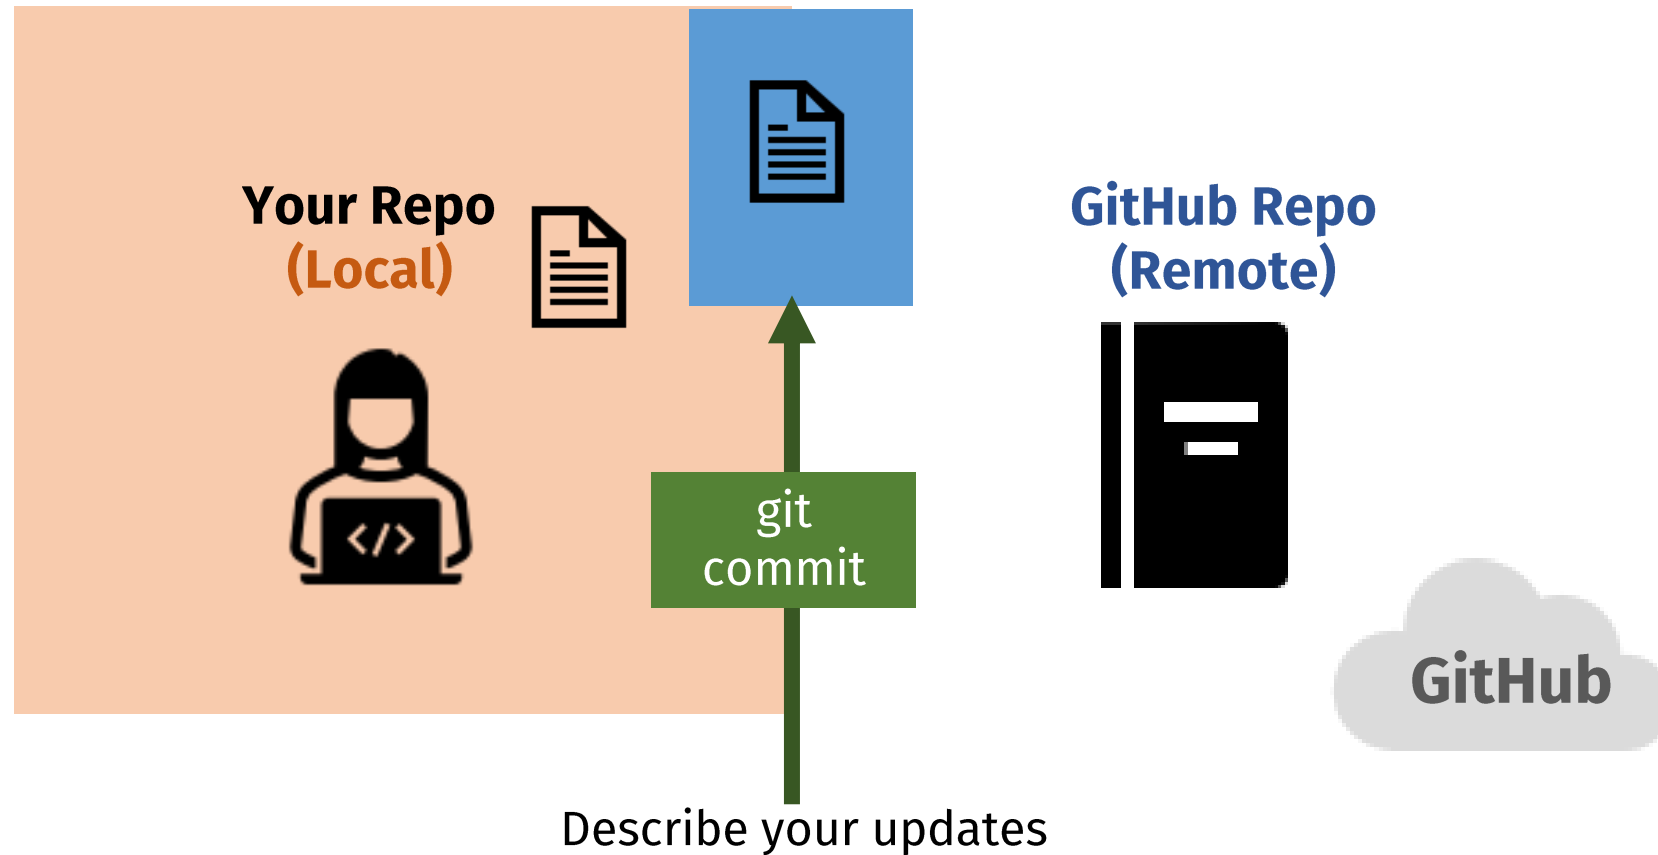

“get new code” from branches

git add

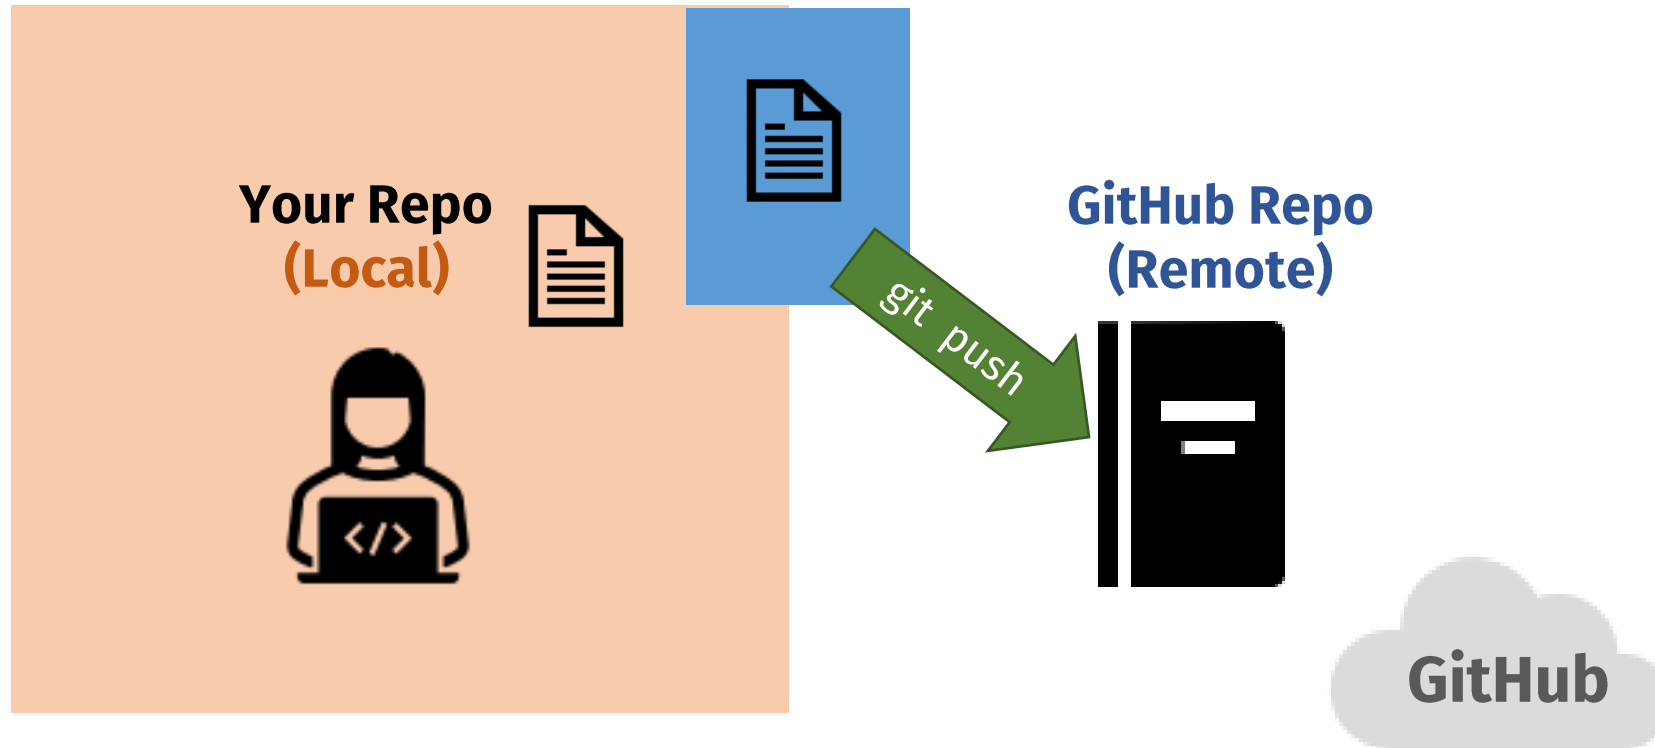

Choose what to save

git commit

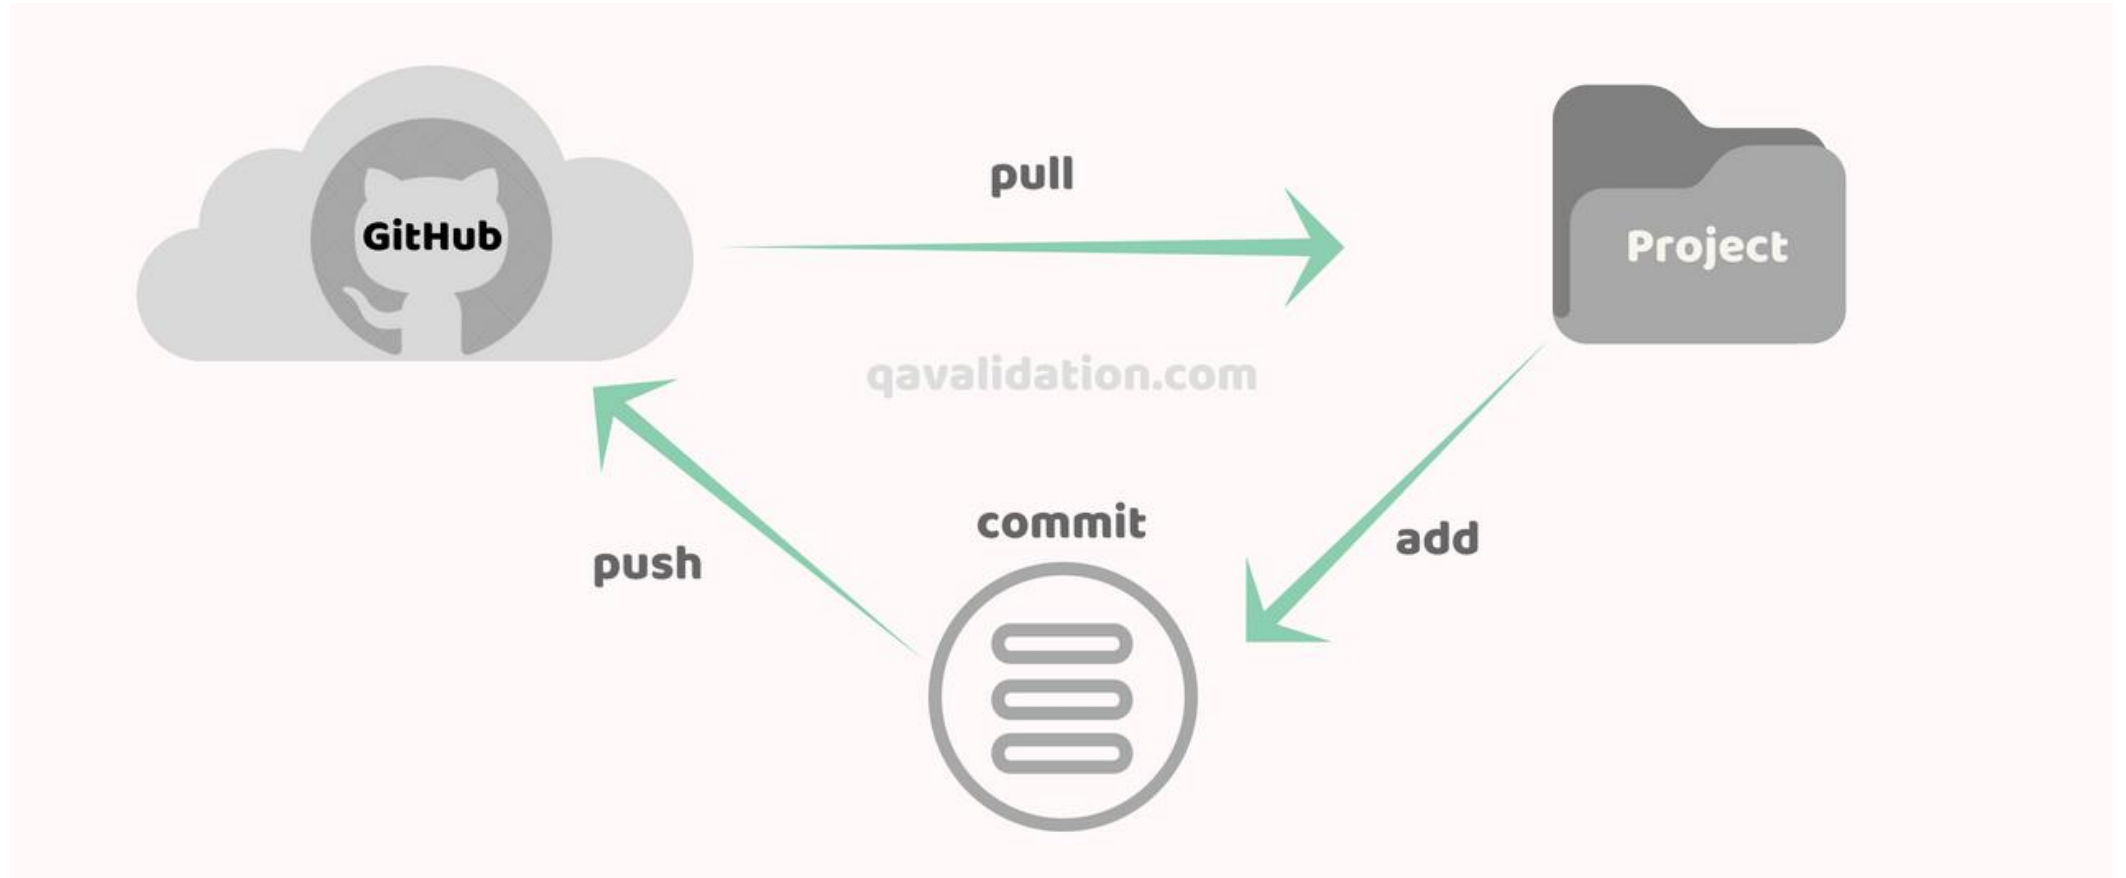

Add a message to your save

git push

“Push code” online to save

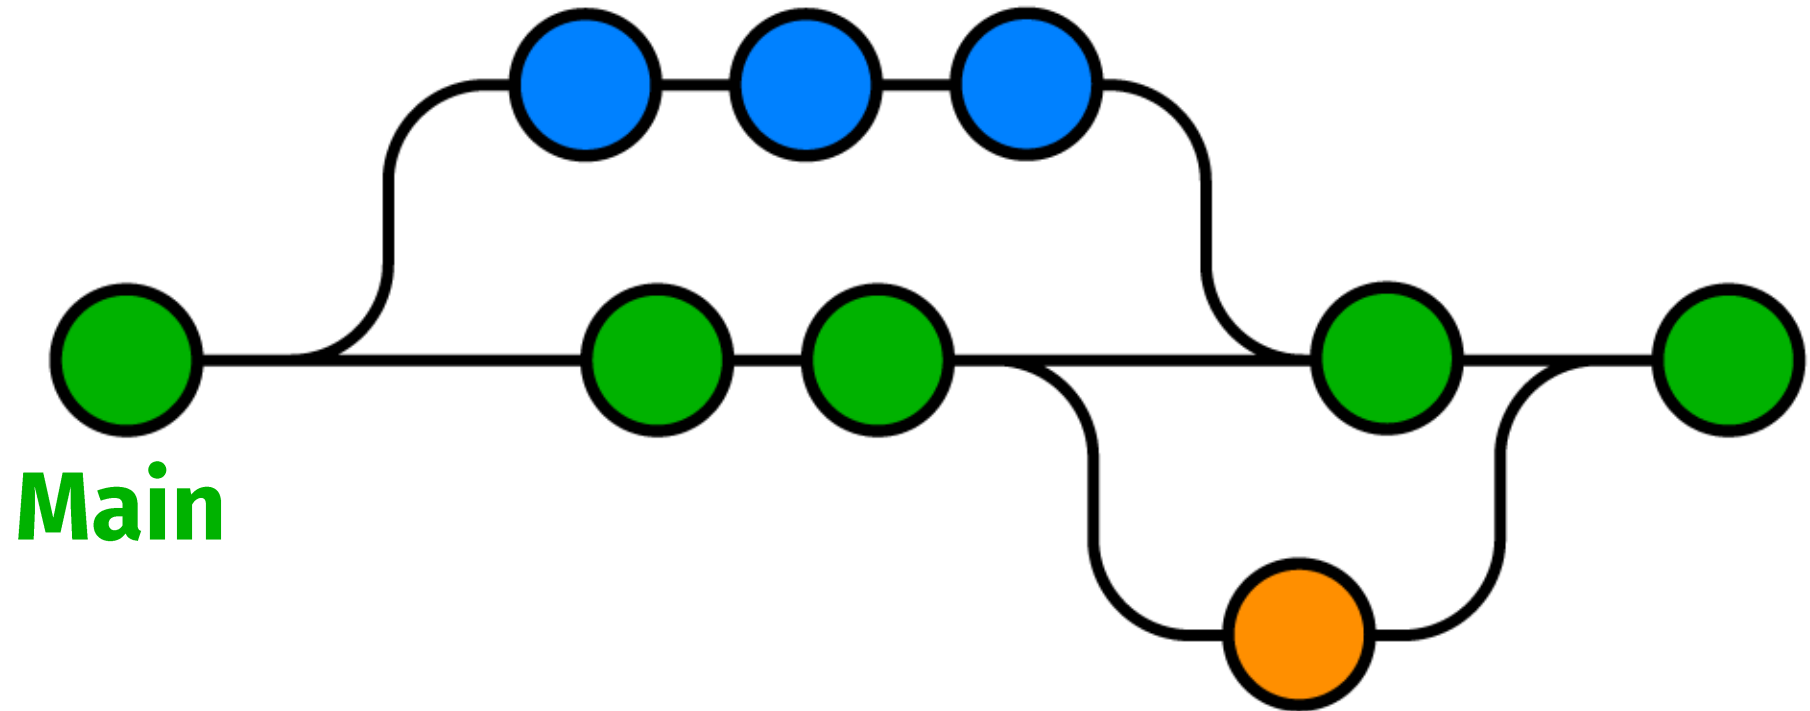

git commit

“Adding code” to “save” with a **message**

git **branches**

Combining code from different branches

Pull Request

“A peer reviewed” merge

Git Collaborating

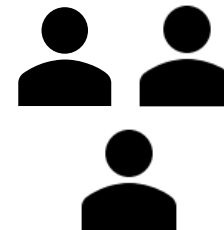

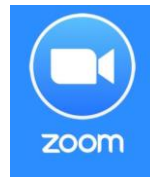

1. Collaborative Coding Sessions

2. Individual Coding Sessions

3. Pair Coding Sessions

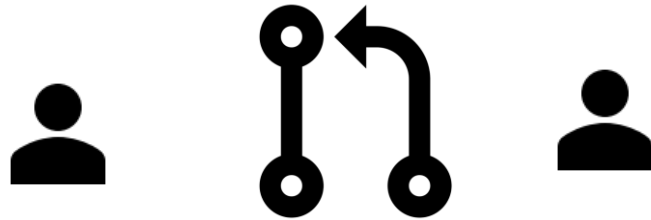

Collaborative Coding Sessions

A screenshot of the Visual Studio Code interface. On the left, the 'SESSION DETAILS' sidebar is open, showing a list of participants and shared resources. The participants list includes Jon W Chu, Amanda Silver, and PJ Meyer, each with a colored circle and a file path. Below this, it shows 'Shared Servers (2)' with 'localhost:3000' and 'REST API', and 'Shared Terminals (2)' with two 'bash' terminals. At the bottom, 'Audio Participants (3)' lists Jon W Chu, Amanda Silver, and PJ Meyer with their respective audio status icons. The main editor area on the right displays a JavaScript file named 'GuestbookGrid.js'. The code includes imports for 'GridArrow', 'GridLegend', and 'GuestbookGridCell', followed by a class definition for 'GuestbookGrid' that extends 'Component'. The class has a 'constructor' and a 'render' method. In the 'render' method, there is a line of code that maps 'this.state.signatures' to 'GuestbookGridCell' components, which is highlighted in green. The names 'Amanda Silver' and 'PJ Meyer' are also highlighted in the code, corresponding to the participants in the sidebar.

Data is not “objective”.
Our applications are not “objective”.
What is “objective” then?

**Our experiences and the experiences of the
communities we facilitate and empower.**

We **must focus our applications with ethical frameworks to avoid misconceptions.**

Why?

Decide where you want to be going with your mapplication.

Or external forces will decide that for you.

**And you will just be upholding the status quo... and
not transforming civil society.**

Be intentional and thoughtful

Key: Be intentional and thoughtful

**If your designs and data intentions are not clear,
it will be easy for others to turn your intentions
against you and the community.**
